A REPORT OF

DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
WASHINGTON, D. C.

United States Department of the Interior

HERITAGE CONSERVATION AND RECREATION SERVICE
WASHINGTON, D.C. 20240

NOV 1973

Honorable Morris E. Udall
Chairman, Committee on Interior
and Insular Affairs
House of Representatives
Washington, D. C. 20543

NOV - 9 1980

Dear Mr. Chairman:

In accordance with Section 4(a) of the Land and Water Conservation Fund
Act of 1965, 16 U.S.C. 124, 16 U.S.C.A. § 1601-4a (a) (1974), I am
pleased to present the eighth annual Federal Recreation Fee Report.

Acknowledgment

This report includes the 1979 Federal recreation fee and visitation
information. The report also includes information on the National Association of State
Park Directors for their assistance in making this a more comprehensive and
valuable report.

This report also marks a major milestone in the history of the Federal
Recreation Fee Report. For the first time, the report contains State
recreation fee and visitation information. The National Association of
State Parks Directors has provided this information and intends to
continue this effort annually.

With the assistance of the National Park Service, the Forest Service,
Bureau of Reclamation, Fish and Wildlife Service, Bureau of Land
Management, Tennessee Valley Authority, Water and Power Resources
Service, and the National Association of State Park Directors, the value
of this report is significantly enhanced.

Sincerely,

Chris Thomas Delaparte
Director

Appendix

We wish to acknowledge the assistance of the National Association of State
Park Directors for their assistance in making this a more comprehensive and
valuable report.

United States Department of the Interior

HERITAGE CONSERVATION AND RECREATION SERVICE
WASHINGTON, D.C. 20240

IN REPLY REFER TO: W323

MAY - 9 1980

Honorable Morris K. Udall
Chairman, Committee on Interior
and Insular Affairs
House of Representatives
Washington, D. C. 20515

Dear Mr. Chairman: *no*

In accordance with Section 4(h) of the Land and Water Conservation Fund Act of 1965, 88 Stat. 194, 16 U.S.C.A. § 4601-6a (h) (1974), I am pleased to present the eighth annual Federal Recreation Fee Report.

This report includes the 1979 Federal recreation fee and visitation information. The seven Federal land-managing agencies administering outdoor recreation resources cooperated in providing the information contained herein.

This report also marks a major milestone in the history of the Federal Recreation Fee Report. For the first time, the report contains State recreation fee and visitation information. The National Association of State Parks Directors has provided this information and intends to continue this effort annually.

With the assistance of the National Park Service, the Forest Service, Corps of Engineers, Fish and Wildlife Service, Bureau of Land Management, Tennessee Valley Authority, Water and Power Resources Service, and the National Association of State Park Directors, the value of this report is significantly enhanced.

Sincerely,

Chris Therral Delaporte
Director

United States Department of the Interior

HERITAGE CONSERVATION AND RECREATION SERVICE
WASHINGTON, D.C. 20240

REPLY REFER TO: W323

MAY - 9 1980

Honorable Henry M. Jackson
Chairman, Committee on Energy
and Natural Resources
United States Senate
Washington, D. C. 20510

Dear Mr. Chairman:

In accordance with Section 4(h) of the Land and Water Conservation Fund Act of 1965, 88 Stat. 194, 16 U.S.C.A. § 4601-6a (h) (1974), I am pleased to present the eighth annual Federal Recreation Fee Report.

This report includes the 1979 Federal recreation fee and visitation information. The seven Federal land-managing agencies administering outdoor recreation resources cooperated in providing the information contained herein.

This report also marks a major milestone in the history of the Federal Recreation Fee Report. For the first time, the report contains State recreation fee and visitation information. The National Association of State Parks Directors has provided this information and intends to continue this effort annually.

With the assistance of the National Park Service, the Forest Service, Corps of Engineers, Fish and Wildlife Service, Bureau of Land Management, Tennessee Valley Authority, Water and Power Resources Service, and the National Association of State Park Directors, the value of this report is significantly enhanced.

Sincerely,

Chris Therral Delaporte
Director

Preface

This document is two reports under one cover. The first report concerns the Federal Recreation Fee Program with visitation data at federal recreation areas during 1979, and the second is state fee and visitation data. The two are combined because of their direct relationship.

This report responds to section 4(h) of PL 92-347 and is the eighth annual Federal Recreation Fee Report. The seven Federal land-managing agencies administering outdoor recreation resources provided the information used in this report. These agencies are:

1. National Park Service
2. Forest Service
3. Corps of Engineers
4. Fish and Wildlife Service
5. Bureau of Land Management
6. Water and Power Resources Service
7. Tennessee Valley Authority

For the first time, the report will contain state fee and visitation data. This information has been provided by the National Association of State Park Directors.

The purpose of this report as quoted from PL 92-347 is to "indicate the number and location of fee collection areas, the number and location of potential fee collection areas, capacity and visitation information, the fees collected, and other pertinent data."

The Federal Recreation Fee Program will operate on a fiscal year basis in 1980. More specifically, this means that data included in the report, with the exception of state data, will represent the period of October 1, through September 30 of the following year. Therefore, this will be the last report with data based on a calendar year. The advantages of converting to a fiscal year system are multifold. The new system will coincide with the budgetary process, and will allow for a timely submission of this report to Congress. In some cases, the conversion is more convenient for the participating agencies who presently collect data on a fiscal year basis.

For the past six years, the Heritage Conservation and Recreation Service (HCERS) has been conducting an annual Fee Program Evaluation. The results of this evaluation are also included in this report. Director Chris Therral Delaporte of the Heritage Conservation and Recreation Service has stated, "This personal contact with the American Public has become very valuable. HCERS and the seven land-managing agencies gain first-hand insight into the public's needs, and receive suggestions for improving the Fee Program, recreation facilities, and services."

Director Delaporte explains that "as we become more sophisticated in our data collection techniques and gain skills in utilization of the information obtained, the values attained from this annual evaluation will be significantly enhanced."

Abbreviations and definitions are provided for the reader in the appendixes (Exhibit A).

SECTION I
FEDERAL RECREATION FEE
AND VISITATION DATA

SECTION 1
FEDERAL BUREAU OF INVESTIGATION
AND VICTIMIZATION DATA

SECTION I

INTRODUCTION

This section of the report is comprised of information related to Federal Recreation areas. An overview of the federal recreation fee program history is set forth in this section to provide the reader with knowledge of the evolution of the fee program.

Part One incorporates data related to federal recreation fees and the Golden Eagle/Golden Age Passport Program.

Part Two contains federal recreation visitation data. The visits are measured by both visitor hours and recreation days.

Part Three is devoted to the HCRS federal recreation fee program onsite evaluations. These evaluations are personal contacts with the recreation area visitors that help the Congress and land-managing agencies gain insight on the public attitude toward the recreation fee program and the Golden Eagle/Golden Age Passport Program. The evaluations also provide an opportunity to reach the public on a one to one basis.

Part Four is a compilation of exhibits which provide specific background material pertinent to Parts One through Three.

INTRODUCTION

This section of the report is intended to provide the reader with knowledge of the history of the Federal reclamation program. It is an overview of the Federal reclamation program history and is not intended to provide the reader with knowledge of the evolution of the program.

Part One summarizes data related to Federal reclamation from the Golden Age of Reclamation to the present.

Part Two contains Federal reclamation statistics data. The data are presented in both tabular form and narrative form.

Part Three is devoted to the 1980 Federal reclamation program and its evaluation. These evaluations are presented in the form of a narrative and are intended to help the Congress and land-management agencies gain insight on the public activities toward the reclamation program and the Golden Age of Reclamation. The evaluation also provides an opportunity to reach the public on a one-to-one basis.

Part Four is a compilation of exhibits which provide specific background material pertinent to Parts One through Three.

LEGISLATIVE HISTORY OF THE FEDERAL RECREATION FEE PROGRAM

The policy of collecting recreation fees at national parks and other federal areas predates the birth of the National Park Service. Fee collection began at Mount Rainier in 1908, at Sequoia - Kings Canyon in 1910, in Crater Lake in 1911, in Glacier in 1912, at Yosemite in 1913, at Mesa Verde in 1914, and at Yellowstone--Grand Teton in 1915. These years marked the commencement of a long, and frequently controversial fee collection history.

Fee collection became general executive policy in President Franklin D. Roosevelt's budget message to the Congress for fiscal year 1941. During President Roosevelt's administration, fee collection was accelerated. In only three years, 1939 through 1942, 40 units of the national park system were designated as fee areas. Just prior to the enactment of the Land and Water Conservation Fund Act of 1965, there were 64 fee areas.

There was no specific authorization to support the expanding collection of outdoor recreation fees, although the act of August 31, 1951 (65 Stat 290), was recognized by the Congress on more than one occasion.

It is the sense of the Congress that any work, service publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration or similar thing of value or utility performed, furnished, provided, granted, prepared, or issued by any Federal agency...to or for any person (including groups, associations, organizations, partnerships, corporations, or businesses), except those engaged in the transaction of official business of the Government, shall be self-sustaining to the full extent possible, and the head of each Federal agency is authorized by regulation (which, in the case of agencies in the executive branch, shall be as uniform as practicable and subject to such policies as the President may prescribe) to prescribe therefor such fee, charge, or price, if any, as he shall determine, in case none exists, or redetermine, in case of any existing one, to be fair and equitable taking into consideration direct and indirect cost to the Government, value to the recipient, public policy or interest served, and other pertinent facts.

Such a law was considered consistent with the expanding fee collection system of the National Park Service.

Further support for fees and charges came from President John F. Kennedy, who advocated a government-wide fee collection on a pay-as-you-go basis. In his endorsement of the original Land and Water Conservation Fund draft legislation, he expressed the opinion, "It is reasonable and in the public interest that needed improvement and expansion of outdoor recreation opportunities be financed largely on a pay-as-you-go basis from the direct beneficiaries--the users of Federal Recreation lands and waters."

The policy of collecting recreation fees at national parks and other federal areas was established in 1907 by the National Park Service. The collection began at Mount Rainier in 1908, at Acadia - Kings Canyon in 1910, in Glacier Lake in 1911, in Olympic in 1912, at Yosemite in 1913, at Mount Verde in 1914, and at Yellowstone-Grand Teton in 1915. These years marked the commencement of a program which fundamentally reorganized the collection history.

The collection began under executive policy in President Franklin D. Roosevelt's budget message to the Congress for fiscal year 1941. During President Roosevelt's administration, the collection was accelerated. In only three years, 1939 through 1941, 100 miles of the national park system were designated as fee areas. That year, the enactment of the Land and Water Conservation Fund Act of 1939, there were 64 fee areas.

There was no specific authorization to support the expanding collection of outdoor recreation fees, although the act of August 31, 1931 (47 Stat 930), was mentioned by the Congress on more than one occasion.

It is the sense of the Congress that any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration or similar thing of value or utility furnished, furnished, provided, granted, purchased, or issued by any Federal agency... so or for any person (including groups, associations, organizations, partnerships, corporations, or businesses), except those engaged in the transaction of official business of the Government, shall be self-sustaining to the full extent practicable, and the head of each Federal agency is authorized by regulation (which, in the case of agencies in the executive branch, shall be as uniform as practicable and subject to each policy as the President may prescribe) to prescribe the fee or such fee, charge, or price, if any, as he shall determine, in case none exists, or otherwise, in case of any existing one, to be fair and equitable. Selling into consideration direct and indirect cost to the Government, value to the recipient, public policy or interest served, and other pertinent factors.

Such a law was considered consistent with the expanding fee collection system of the National Park Service.

Further support for fees and charges came from President John F. Kennedy, who advocated a government-wide fee collection as a pay-as-you-go basis. In his endorsement of the original Land and Water Conservation Fund draft legislation, he expressed the opinion, "It is reasonable and in the public interest that needed improvement and expansion of outdoor recreation opportunities be financed largely on a pay-as-you-go basis from the direct beneficiaries—the users of Federal Recreation lands and waters."

The 1964 report on HR 3846, which was eventually enacted as the Land and Water Conservation Fund Act of 1965 (78 Stat 897), included the following statement pertaining to pay-as-you-go fee collection.

The Congress endorsed this basic concept when in 1951, it...stated that services which are rendered to special beneficiaries by Federal agencies should be self-sustaining to the fullest extent possible. Federal recreation areas have been acquired or developed for the most part from funds appropriated out of the general tax revenues to the U.S. Treasury. People who use these areas received special benefits at large. In fairness to the general taxpayer, who carries the major burden of support for these areas, the recipient of these special benefits--the people who use the areas for recreation purposes--should pay a modest fee for the resources used.

Even though the Congress at one point repealed the fee collection provisions of the Land and Water Conservation Act, it continued to support the general user fee policy of collecting recreation fees.

It should be borne in mind that despite congressional and executive branch support, no coordinated fee program existed. With the rapid expansion in the number of fee collection areas, need for coordination grew.

It is important to note that a provision of the Act of August 31, 1951, also stated that, "fees shall be as uniform as practicable and subject to such policies as the President may prescribe." In fact, legal officers of the Department of the Interior believed this provision was adequate authority to initiate a formal coordinated fee collection program. Despite this authority, the Department refrained from taking such action, since it believed the authorization was insufficiently specific.

It is revealing from the previous discussion that recreation fee collection has had a long history of support from both the executive branch and Congress.

An attitude soon developed indicating that a recreation fee program should be continued only on the basis of special legislation. This attitude resulted in the development of needed guidelines and a mutual understanding between the executive branch and the Congress. The legislative history of the Land and Water Conservation Fund Act records that heated debate occurred concerning the details of administering this collection policy.

In 1962, two bills were introduced and became the precursors of the 1965 Land and Water Conservation Fund Act. One provided organic authorities (PL 88-29) for the Bureau of Outdoor Recreation (now the Heritage Conservation and Recreation Service and the coordinator of the fee program) and the other provided for recreation planning and land acquisition and development grants to states. Little prospect of enactment was acknowledged for these bills at the time of their introduction.

In 1963, the "Administration" put together a new legislative proposal that progressed slowly but eventually was enacted as the Land and Water Conservation Fund Act of 1965. HR 3846 and S 859 were the bills leading to enactment. During the hearings, most of the controversies concerned the fee collection provisions. This section of the bill did not present a clear picture of the kind of program proposed. It was not specific about what federal fees would be charged, or how, or where.

Secretary of the Interior Stewart L. Udall appeared before the Senate Interior and Insular Affairs Committee on May 27 and 28, 1963, in an attempt to clarify how the proposed fee collection system would be administered. In a statement before the Committee, Secretary Udall proposed the sale of an annual conservation sticker, the forerunner of the present Golden Eagle passport.

Long before enactment of the Land and Water Conservation Fund Act of 1965, and continuing through enactment of PL 91-208 amending that act, there was a hard-fought contest in the Congress between those who believed the Corps of Engineers should be included in the fee program and those who did not.

The language included in the 1965 Land and Water Conservation Fund Act stated, "No fee of any kind shall be charged by a Federal agency under any provision of the act for use of any waters."

In 1966, HR 13313 was introduced to prohibit the collection of any entrance, admission or other user fees or charges at the Corps of Engineers projects where in the determination of Secretary of the Army,... "the recreation benefits from such a project are less than half the total benefits attributable to such a project." No action was taken on this report, although it did set a pattern for future proposals.

In 1967, HR 11236 was introduced and further pressured the suspension of fee collection on Corps sites. The Department of the Interior advanced several arguments in opposition to this proposed termination. Some of these arguments were as follows:

- Exempting one agency from the pay-as-you-go policy (which the Congress established in the Land and Water Conservation Fund Act fee program) would place the whole concept in some doubt and make its application more difficult for other agencies
- Special consideration for the Corps of Engineers had already been fully debated by other agencies
- People who use Corp of Engineers projects received special benefits not extending to the general public, just as users of other agency projects
- Some federal agencies collected fees at areas adjacent to Corps reservoirs. These fee collection programs would be placed in a difficult position if fees were terminated on nearby Corps areas

In 1961, the "Antiquities Act" was amended to provide that
proposed simply but eventually was amended as the Land and Water
Conservation Fund Act of 1965. H.R. 3846 and S. 839 were the bills leading to
enactment. During the hearings, part of the controversy concerned the fee
collection provisions. This section of the bill did not present a clear
picture of the kind of program proposed. It was not specific about what
kind of fee would be charged, or how, or where.

Secretary of the Interior Stewart L. Udall appeared before the Senate Interior
and Land Conservation Committee on May 17 and 20, 1963, in an attempt to clarify
how the proposed fee collection system would be administered. In a statement
before the Committee, Secretary Udall proposed the sale of an annual
conservation sticker, the forerunner of the present Golden Eagle passport.

Long before enactment of the Land and Water Conservation Fund Act of 1965, and
containing through enactment of PL 91-608 amending that act, there was a long-
fought contest in the Congress between those who believed the Corps of
Highways should be included in the fee program and those who did not.

The language included in the 1965 Land and Water Conservation Fund Act stated,
"No fee of any kind shall be charged by a Federal agency under any provision
of the act for use of any vehicle."

In 1966, H.R. 13313 was introduced to prohibit the collection of any entrance,
admission or other user fees or charges at the Corps of Engineers projects
where in the determination of Secretary of the Army "...the recreation
benefits from such a project are less than half the total benefits
attributable to such a project." No action was taken on this report, although
it did not a pattern for future proposals.

In 1967, H.R. 13355 was introduced and further presented the suspension of fee
collection on Corps sites. The Department of the Interior advanced several
arguments in opposition to this proposed termination. Some of these arguments
were as follows:

Exempting one agency from the pay-as-you-go policy (which the
Congress established in the Land and Water Conservation Fund Act
the program) would place the whole concept in some doubt and
make the application more difficult for other agencies.

Special consideration for the Corps of Engineers had already
been fully debated by other agencies.

People who use Corps of Engineers projects received special
benefits not extending to the general public, just as users of
other agency projects.

Some Federal agencies collected fees at areas adjacent to Corps
reservoirs. These fee collection programs would be placed in a
difficult position if they were terminated on nearby Corps areas.

- The Land and Water Conservation Fund was already proving to be in need of more revenue
- Many state and local recreation areas existed at Corps projects. National policy encouraged such areas. Recreation fees were important sources of revenue supporting these areas

The fee program survived the pressures of 1966 and 1967 but in 1968 the "tides turned." The administration recommended that the Congress provide authority to earmark receipts from offshore oil leases as a new source of revenue to offset the appropriation increase to the fund from a level that had consistently averaged around \$100 million to a guaranteed minimum of \$200 million per year. The Senate and House compromised on the language and finally a report on HR 8572 (a companion measure to S 1401) indicated that the Fund would be increased by the earmarked money.

However, HR 8572 also proposed the repeal of authority for fee collection as set forth in the Land and Water Conservation Fund Act. The report set forth five reasons for the breakdown of the coordinated fee program:

- Fee revenues returned only 18 percent of expectations
- Daily user fees were not being collected in most instances, resulting in visitors gaining a "tremendous bargain" by spending weeks and even months in Federal campgrounds
- About two-thirds of the fee revenue had come from the National Park System. Other agencies were not making any real effort to collect use fees
- Public support for fee collection was lacking (based on low revenue and public expression against collection)
- Collection costs were noted as often being too high in relation to the amount of revenue produced

Enacted July 15, 1968, PL 90-401, terminated a coordinated fee program (although this action did not become effective until March 31, 1971). Four weeks later, PL 90-483 was enacted. It exempted the Corps of Engineers from collecting entrance and admission fees at areas that did not have highly developed facilities or facilities needing continuous presence of personnel for maintenance and supervision.

On October 3, 1968, the House Committee on Public Works resolved that the Corps of Engineers without further delay assure immediate free access to and use of waters at reservoirs (exempted from the fee system due to PL 90-483). Despite Bureau of Outdoor Recreation opposition, all fee collection was suspended at Corps projects. This became effective October 15, 1968, and

The Land and Water Conservation Fund was already intended to be
 in need of more revenue

Many states and local government areas entered as Corps
 projects. National policy encouraged such areas. Restoration
 laws were important sources of revenue supporting these areas

The law program authorized the Secretary of 1966 and 1967 but in 1968 the "Lien
 program." The administration recommended that the Congress provide authority
 to certain projects (not all) as a source of revenue to
 offset the expenditures. The law was passed in 1968 and had
 approximately \$100 million to a guaranteed minimum of \$200
 million per year. The House and Senate agreed on the language and
 finally a report on H.R. 1301 (a companion measure to S. 1301) indicated that the
 Fund would be increased by the estimated amount.

However, H.R. 1301 also proposed the repeal of authority for the collection of
 set forth in the Land and Water Conservation Fund Act. The report set forth
 five reasons for the termination of the program:

- One reason mentioned only in terms of expenditures
- Only one reason was not being collected in most instances.
- Resulting in a "revenue program" by spending
- vested and even within the Federal Government
- About two-thirds of the two revenues had come from the National
- Park System. Other agencies were not making any real effort to
- collect the fees
- Public support for the collection was lacking (based on low
- revenue and public expenditure against collection)
- Collection costs were noted as often being too high in relation
- to the amount of revenue produced

Enacted July 15, 1968, PL 90-501, terminated a coordinated fee program
 (although this action did not become effective until March 31, 1971).
 Four years later, PL 90-501 was amended. It amended the Corps of Engineers
 from collecting entrance and admission fees at areas that did not have highly
 developed facilities or facilities meeting continuous presence of personnel
 for maintenance and supervision.

On October 1, 1968, the House Committee on Public Works resolved that the
 Corps of Engineers should further delay action on the fee program to and
 use of revenue at recreation (excepted from the law passed due to PL 90-501).
 Despite the House of Representatives opposition, all the collection was
 suspended at Corps projects. This became effective October 15, 1968, and

remained in suspension until the Secretary of the Army published a list of fee areas considered to be consistent with the criteria.

A momentum for restoration of the coordinated fee program came from the public. As a result of numerous requests for continuation of an annual entrance permit S 2315 was passed by the Senate on September 10, 1969. The bill repealed the first section of PL 90-401 and section 210 of PL 90-403 (the sections that revoked the original fee collection authorities).

After recalling the bill for further debate within Committee, the bill was enacted with these provisions:

- Extended the original fee authorities of the Land and Water Conservation Fund Act through December 31, 1971 (from March 31, 1971).
- Authorized increasing the price of the annual permit, known as the Golden Eagle Passport, to \$10
- Imposed a fee report requirement
- Continued authorization of Corps of Engineers fee program exceptions

On July 11, 1972, PL 92-347 laid the foundation for the current Federal Recreation Fee Program. The provisions are highlighted in the following outline:

Highlights of PL 92-347, enacted July 11, 1972, in order as presented in law.

- Admission fees chargeable only at certain National Park Service and Forest Service designated areas
- Golden Eagle Passport resurrected
- Single visit fees authorized
- Golden Age Passport introduced
- No entrance fee charged foreign visitors with valid passports, until July 11, 1975
- Use fees required.
- Basis for fees established (direct and indirect cost to the government, the benefits to the recipient, etc.)
- Clear notice of fees required

- Comparability of fees given as basic intent
- Arrest of violators allowed
- Fees available to collecting agency for outdoor recreation purposes
- Annual reports to the Congress required on fee program
- "Golden Eagle Insignia" and its lawful use specified

In an effort to define the proposed facility types for which fees could be charged, PL 93-81 was enacted:

Highlights of PL 93-81, enacted August 1, 1973, In order as presented in the law.

- No use fee may be charged for areas or facilities that all visitors might reasonably be expected to use
- Strict new requirements are prescribed for charging use fees at campgrounds, including flush restrooms and showers
- Definition of "single visit" to entrance fee areas, encompassing length of time a visitor may remain within the boundary of a designated fee area

As a result of PL 93-81, the restrictions placed on campground use areas led to unanticipated elimination of fees at nearly all federal campgrounds. This resulted in considerable revenue loss.

In an attempt to resolve the problems caused by PL 93-81, the Congress passed PL 93-303 on June 7, 1974. It also smoothed out many other rough edges in the fee program.

Highlights of PL 93-303, enacted June 7, 1974 In order as presented in law.

- Federal entrance fee area definition clarified, spelling out where admission fees shall not be charged
- Golden Eagle Passport definition clarified and coverage broadened to include non-vehicle entrance
- Golden Eagle Passport no longer available through Post Offices; instead it shall be available for purchase at any designated Entrance Fee area
- Golden Age Passport is to be a lifetime pass

- Golden Age Passport holder must be a U.S. citizen or, if an alien, must be domiciled in the U.S.
- Golden Age Passport coverage broadened to include non-vehicle entrance
- Use fee charges prohibited on specific areas and facilities such as drinking water, roads, wayside exhibits, and visitor centers
- Less stringent requirements mandated for chargeable campgrounds, eliminating flush restroom and shower requirements
- Requirements set forth for primitive campgrounds at Corps of Engineers sites
- New fee category "Special Recreation Permits" set forth
- Fees available to collecting agency for outdoor recreation purposes
- Visitor reservation services authorized, to be handled by public or private entity

In anticipation of the passage of PL 93-303, officials of the seven affected land-managing agencies formed an "Interagency Recreation Fee task force" early in 1974. The purpose of the Task Force was to plan and prepare for the new legislation. The primary task was the formation of rules and regulations to parallel the provisions of PL 93-303. The rules and regulations were published in the Federal Register on September 16, 1974.

On June 28, 1974, the Washington headquarters of HCRS directed each regional office to carry out a Federal Recreation Fee Program Field Check (later changed to the Federal Recreation Fee Program Onsite Evaluation). It was indicated that such annual evaluations were an integral part of efforts to coordinate and administer the federal Recreation Fee Program.

The year 1975 was the first full year in which there were no changes in fee program legislation or regulations. This stability permitted agency personnel and recreation visitors to become more familiar with the Fee system, providing smoother, more efficient operation.

The ensuing three years--1976, 1977 and 1978--were also free of fee program legislation or regulation changes.

Under the passport system as a U.S. citizen or, if an alien, must be domiciled in the U.S.

Under the passport system, however, it is not necessary to include non-vehicle

The law is also prohibited on specific items and facilities such as drinking water, roads, vehicle exhibits, and visitor centers.

Law enforcement requirements related to chargeable categories, eliminating those involving and other requirements.

Requirements and forth for protective categories at Corps of Engineers sites.

New fee category "Special Recreation Permits" set forth.

Fees available to collecting agency for outdoor recreation purposes.

Visitor recreation services authorized, to be handled by public or private entity.

In connection of the passage of PL 92-303, officials of the agency affected land-management agency formed an "Interagency Recreation Task Force" early in 1974. The purpose of the Task Force was to plan and prepare for the new legislation. The primary task was the formation of rules and regulations to parallel the provisions of PL 92-303. The rules and regulations were published in the Federal Register on September 16, 1974.

On June 28, 1975, the Washington headquarters of HHS directed each regional office to carry out a Federal Recreation Fee Program Field Check (later changed to the Federal Recreation Fee Program Quality Evaluation). It was indicated that such annual evaluations were an integral part of efforts to coordinate and administer the Federal Recreation Fee Program.

The year 1975 was the first full year in which there were no changes in fee program legislation or regulations. This stability permitted agency personnel and recreation visitors to become more familiar with the fee system, providing another, more efficient operation.

The ensuing three years--1976, 1977 and 1978--were also free of fee program legislation or regulation changes.

RECENT CHANGES IN THE FEDERAL RECREATION FEE PROGRAM

In 1979, significant changes developed in the Federal Recreation Fee Program. Legislation was passed on October 12, 1979, requiring the stabilization of all federal entrance fees that are charged at units of the National Park System. More specifically, the Secretary of the Interior "shall not charge any entrance or admission fee in excess of the amounts which were in effect as of January 1, 1979, or charge said fees at any unit of the National Park System where such fees were not in effect as of such date, nor shall the Secretary charge after the date of enactment of this section, user fees for transportation services and facilities in Mount McKinley National Park, Alaska". (PL 96-87, Section 402).

The language set forth in PL 96-87, pertinent to entrance fees, will permit a more careful examination of the "link" between maintenance costs and recreation fees.

USE FEES

Presently, the Federal Recreation Fee structure included in the Department of Interior regulations, set forth fee ceilings for specific types of recreation facilities and services.

In 1974, when the regulations were written, it seemed reasonable to set such fee ceilings. Recent concern has been expressed by the seven land-managing agencies regarding the ceilings.

The agencies have indicated that unless the ceilings are deleted from the regulations, charging fees comparable with federal and non-federal public agencies, as allowed by law, will not be possible in some areas of the United States. On July 20, 1979 a meeting of the Federal Recreation Fee Task Force was held to resolve this problem. Consensus on amending the regulations, allowing consideration of comparability instead of the fee ceilings, was achieved. Both the current and proposed rule are on page 89 and 90, respectively.

It is important to note, that the deletion of fee ceilings will not itself result in increased fees and charges. Fees may increase or decrease in some areas of the United States to the extent that comparability will be achieved with federal and non-federal public agencies.

In 1919, substantial changes developed in the Federal Recreation Fee Program. Legislation was passed on October 12, 1919, regarding the establishment of all Federal recreation fees that are charged at units of the National Park System. This legislation, the Secretary of the Interior "shall not charge any entrance or admission fee in excess of the amounts which were in effect on January 1, 1919, or charge said fees on any right of the National Park System which fees were not in effect as of such date, nor shall the Secretary charge any fee of admission at this location, nor fees for transportation services and facilities in Mount McKinley National Park, Alaska." (PL 66-57, Section 102).

The language set forth in PL 66-57, pertinent to entrance fees, will permit a more careful examination of the "link" between maintenance costs and recreation fees.

USE FEES

Presently, the Federal Recreation Fee structure included in the Department of Interior regulations, set forth fee ceilings for specific types of recreation facilities and services.

In 1919, when the regulations were written, it seemed reasonable to set such fee ceilings. Recent comments have expressed by the seven land-managing agencies regarding the ceilings.

The agencies have indicated that unless the ceilings are deleted from the regulations, charging fees comparable with Federal and non-Federal public agencies, as allowed by law, will not be possible in some areas of the United States. On July 30, 1919 a meeting of the Federal Recreation Fee Task Force was held to review this problem. Comments on amending the regulations, allowing elimination of comparability instead of the fee ceilings, was achieved. Both the current and proposed rate are on page 89 and 90, respectively.

It is important to note, that the deletion of fee ceilings will not result in increased fees and charges. Fees may increase or decrease in some areas of the United States to the extent that comparability will be achieved with Federal and non-Federal public agencies.

The Golden Eagle/Golden Age Passports

The Golden Eagle and Golden Age Passports are considered to be the backbone of the Federal Recreation Fee Program. This was evidenced in the "Legislative History" at the time the Passport was terminated; and the "Anecdotes of public opinion" revealed the program.

Since 1973, Golden Eagle Passport sales have doubled and then declined in 1975. This decline may be attributed to energy problems resulting in uncertain fuel availability and high fuel costs. As anticipated, the total number of Golden Age Passports issued has decreased since 1973. This is, of course, a result of the decline in sales of the Golden Age Passport.

1976	590,211	283,263
1977	629,717	278,196

Effective January 1, 1975, Lifetime Golden Age Passports were issued.

It is the responsibility of the National Park Service and U.S. Forest Service to sell the Golden Eagle Passports. All seven of the participating land-ownership agencies issue Golden Age Passports. The National Park Service issued 207,000 of the 629,717 Golden Eagle Passports sold in 1979. The National Park Service also issued 75 percent of the Golden Age Passports.

Golden Eagle/Golden Age Passport Public Awareness Efforts

Public awareness is an essential ingredient to the success of any program. This is accomplished for the federal fee program through the issuance of a Golden Eagle/Golden Age brochure for public dissemination through participating federal agencies and the Consumer Information Center administered by the General Services Administration. Included in this report is an example of the brochure.

Other efforts to gain public awareness have been through news releases, news articles, film strips, information sheets, senior citizen publications, and outdoor publications.

Presently, HCRS is preparing to intensify public awareness for 1980.

Most recreation entrance and use fees collected by the seven Federal land-managing agencies which provide public outdoor recreation opportunities are derived from either the Golden Eagle Passport or the entrance, use and special recreation permit fee sales. Each agency has its own separate recreation account for these revenues and spends this revenue for various recreation planning, acquisition and development programs as well as for maintenance and operation costs.

Golden Eagle/Golden Age Task Force Public Awareness Efforts

Public awareness is an essential ingredient to the success of any program. This is accomplished for the Federal Tax program through the issuance of a Golden Eagle/Golden Age brochure for public dissemination through participating Federal agencies and the Consumer Information Center administered by the General Services Administration. Included in this report is an example of the brochure.

Other efforts to gain public awareness have been through news releases, news articles, film strips, information sheets, audio cassettes, and outdoor publications.

Presently, NIRS is preparing to intensify public awareness for 1980.

1979 Federal Recreation Fee Program

Golden Eagle Golden Age Passports ★

TO THE READER

The 1979 Golden Eagle Passport and the lifetime Golden Age Passport are two congressionally authorized passes which may help you enjoy the parks and recreation areas managed by the Federal Government.

The Golden Eagle Passport and Golden Age Passport were established as part of the Federal Recreation Fee Program under the Land and Water Conservation Fund Act of 1965, as amended. The program authorizes the charging of fees for entrance, use and special recreation permits. You can enter and use some Federal parks or recreation areas and facilities free of charge. Other areas and facilities require payment of either "entrance" or "use" fees—or both. Use fees are charged for certain facilities such as campgrounds, boat launching equipment, etc. A third category of fees—special recreation permit fees—may be charged for specialized uses, such as group activities, recreation events, and motorized recreation vehicles.

Most recreation entrance and use fees collected by the seven Federal land-managing agencies which provide public outdoor recreation opportunities are derived from either the Golden Eagle Passport or the entrance, use and special recreation permit fee sales. Each agency has its own separate recreation account for these revenues and spends this revenue for various recreation planning, acquisition and development programs as well as for maintenance and operation costs.

Golden Eagle Golden Age ★ Passports

The 1973 Golden Eagle Passport and the lifetime Golden Age Passport are two congressionally authorized passes which may help you enjoy the parks and recreation areas managed by the Federal Government.

The Golden Eagle Passport and Golden Age Passport were established as part of the Federal Recreation Fee Program under the Land and Water Conservation Fund Act of 1965, as amended. The program authorizes the charging of fees for entrance, use and special recreation permits. You can enter and use some Federal parks or recreation areas and facilities free of charge. Other areas and facilities require payment of either "entrance" or "use" fees—or both. Use fees are charged for certain facilities such as campgrounds, boat launching equipment, etc. A third category of fees—special recreation permit fees—may be charged for specialized uses, such as group activities, recreation events, and motorized recreation vehicles.

Most recreation entrance and use fees collected by the seven Federal land managing agencies which provide public outdoor recreation opportunities are derived from either the Golden Eagle Passport or the entrance, use and special recreation permit fee sales. Each agency has its own separate recreation account for these revenues and expends this revenue for various recreation planning, acquisition and development programs as well as for maintenance and operation costs.

THE PASSPORTS

GOLDEN EAGLE PASSPORT For persons under 62 years of age

What Is It; And, What Is It Good For?

The Golden Eagle Passport is an annual **entrance permit** to parks, monuments, and recreation areas administered by the Federal Government. It admits the permit holder and carload¹ of accompanying people. Where entry is not by private car, the Golden Eagle Passport admits the permit holder and family group—parents, children, and spouse. The Golden Eagle Passport does not cover use fees, such as fees for camping, and other special use charges. **It is valid for entrance fees only.**

The Golden Eagle Passport costs \$10 and is **not refundable nor transferable**. It is good for one calendar year. In 1979, the Golden Eagle Passport may be used at designated areas of the National Park System charging entrance fees—these areas are listed on pages 8 and 9.

Those who plan several visits to Park System areas charging entrance fees may save by buying the Golden Eagle Passport for \$10 rather than paying individual entrance fees (ranging from 50 cents per person to \$3 per car) at each area.

How Do I Get A Golden Eagle Passport?

Golden Eagle Passports may be purchased in person or by mail for \$10 at:

¹The Golden Eagle Passport covers entrance fees for the permit holder and any persons accompanying him or her in a single, private noncommercial vehicle. A private noncommercial vehicle is defined as any passenger car, station wagon, pickup, camper truck, motor home, motorcycle, or other motor vehicle used for private recreation purposes.

- Headquarter Offices (addresses page 6)
National Park Service, Washington, D.C.
Forest Service, Washington, D.C.
- Regional Offices (addresses pages 6 and 7)
National Park Service
Forest Service

Passports are no longer available at Post Offices as they were in 1972 and 1973.

GOLDEN AGE PASSPORT For persons 62 years of age or older

What Is It; And, What Is It Good For?

The Golden Age Passport is a free lifetime entrance permit to those parks, monuments, and recreation areas administered by the Federal Government which charge entrance fees and is issued to citizens or permanent residents of the United States who are 62 years of age or older. It also provides a 50 percent discount on Federal use fees charged for facilities and services such as camping, boat launching, parking, etc. The Golden Age Passport **does not** cover fees charged by private concessionaires.

The Golden Age Passport admits the permit holder and a carload² of accompanying people. Where entry is not by private car, the Golden Age Passport admits the permit holder and his or her spouse and children.

²The Golden Age Passport admits the permit holder and any persons accompanying him or her in a single, private, noncommercial vehicle. A private noncommercial vehicle is any passenger car, station wagon, pickup, camper truck, motor home, motorcycle, or other motor vehicle used for private recreation purposes.

GOLDEN EAGLE PASSPORT For persons under 65 years of age

What is it? And, What is it Good For?
The Golden Eagle Passport is an annual entrance permit to certain monuments, and recreation areas administered by the Federal Government. It admits the permit holder and certain of accompanying people. Where entry is not by private car, the Golden Eagle Passport admits the permit holder and family group—parents, children, and spouse. The Golden Eagle Passport does not cover use fees, such as fees for camping, and other special use charges. It is valid for entrance fees only.

The Golden Eagle Passport costs \$10 and is not refundable nor transferable. It is good for one calendar year. In 1975, the Golden Eagle Passport may be used at designated areas of the National Park System charging entrance fees—these areas are listed on pages 6 and 7.

Those who plan several visits to Park System areas charging entrance fees may save by buying the Golden Eagle Passport for \$10 rather than paying individual entrance fees ranging from 50 cents per person to \$5 per car at each area.

How Do I Get A Golden Eagle Passport?
Golden Eagle Passports may be purchased in person or by mail for \$10 at:

The Golden Eagle Passport offers entrance fees for the permit holder and any persons accompanying him or her in a car, or, where a commercial vehicle is desired, a single commercial vehicle. A private noncommercial vehicle is defined as any noncommercial motor vehicle, except a motor truck, camp truck, motor home, motorcycle, or other motor vehicle used for private recreation purposes.

- Headquarters Office (address page 6)
- National Park Service, Washington, D.C.
- Forest Service, Washington, D.C.
- Regional Offices (addresses pages 6 and 7)
- National Park Service
- Forest Service

Passports are no longer available at Post Offices as they were in 1975 and 1976.

GOLDEN AGE PASSPORT For persons 65 years of age or older

What is it? And, What is it Good For?
The Golden Age Passport is a lifetime entrance permit to those parks, monuments, and recreation areas administered by the Federal Government which charge entrance fees and is issued to citizens or permanent residents of the United States who are 65 years of age or older. It also provides a 50 percent discount on Federal use fees charged for facilities and services such as camping, boat launching, parking, etc. The Golden Age Passport does not cover fees charged by private concessionaires.

The Golden Age Passport admits the permit holder and a maximum of eight accompanying people. Where entry is not by private car, the Golden Age Passport admits the permit holder and his or her spouse and children.

The Golden Age Passport admits the permit holder and any persons accompanying him or her in a single, private, noncommercial vehicle. A private noncommercial vehicle is defined as any noncommercial motor vehicle, except a motor truck, camp truck, motor home, motorcycle, or other motor vehicle used for private recreation purposes.

1979 FEDERAL RECREATION FEES

How Do I Obtain A Golden Age Passport?

You may only obtain a Golden Age Passport in person. **Golden Age Passports are not available by mail.**

At the time you obtain a Golden Age Passport in person, you must show proof of age. Proof of age may be a State driver's license showing your birth date, or birth certificate (Medicare cards are not acceptable because they are also issued to people under 62 years). If you have no proof of age, you must sign an affidavit attesting to your age.

Where Do I Get A Golden Age Passport?

The Golden Age Passport is available at most federally operated recreation areas where it may be used. Thus, **it may not be necessary to obtain the Passport before beginning a vacation trip.**

The Golden Age Passport may be obtained **in person** at:

- Headquarters and all Regional Offices (addresses on pages 6 and 7)
National Park Service
Forest Service
- All Forest Service Supervisor's Offices
- Most Forest Service Ranger Station Offices
- All National Park System areas where entrance fees are charged
- Bureau of Land Management
All State Offices
All District Offices
- Tennessee Valley Authority
Land Between the Lakes
Watts Bar Lake
- Fish and Wildlife Service
All Regional Offices
National Wildlife Refuges where Land and Water Conservation Fund use fees are in effect
- Bureau of Reclamation
Hoover Dam

Only those Federal areas designated as fee areas or facilities may charge entrance or recreation use fees.

Entrance Fees

In 1979, entrance fees will be charged at designated National Parks, Monuments, Recreation Areas, Seashores, Historic and Memorial Parks and Sites administered by the National Park Service. Entrance fees may be paid on a single-visit basis or on an annual basis through purchase of the \$10 Golden Eagle Passport (see page 2 "Golden Eagle Passport"). Citizens or permanent residents of the United States who are 62 years of age or older may obtain the free lifetime Golden Age Passport, good for entrance fees (see page 3, "Golden Age Passport").

Use Fees and

Special Recreation Permit Fees

In 1979 all seven Federal land-managing agencies are authorized to charge recreation use fees for specialized sites, facilities, equipment, or services furnished at Federal expense and meeting certain criteria. Fees may also be charged for special recreation permits issued for uses such as group activities, recreation events, motorized recreation vehicles and other specialized uses.

GPO : 1979 O - 287-824

Note: No charges by private concessionaires or other contractors operating within Federal recreation areas are covered by the Golden Eagle Passport, Golden Age Passport, single visit entrance fees, recreation use fees, or special recreation permit fees.

1979 FEDERAL ENTRANCE FEE AREAS

You can obtain a Golden Eagle or a Golden Age Passport at the listed recreation areas requiring an entrance fee. This list does not include areas that charge only recreation use fees and/or special recreation permit fees.

- **Arizona**
 - Casa Grande Ruins National Monument
 - Chiricahua National Monument
 - Grand Canyon National Park
 - Montezuma Castle National Monument
 - Petrified Forest National Park
 - Pipe Spring National Monument
 - Saguaro National Monument
 - Tonto National Monument
 - Tumacacori National Monument
 - Tuzigoot National Monument
 - Walnut Canyon National Monument
- **Arkansas**
 - Pea Ridge National Military Park
- **California**
 - John Muir National Historic Site
 - Lassen Volcanic National Park
 - Muir Woods National Monument
 - Pinnacles National Monument
 - Sequoia—Kings Canyon National Parks
 - Yosemite National Park
- **Colorado**
 - Black Canyon of the Gunnison National Monument
 - Colorado National Monument
 - Grand Sand Dunes National Monument
 - Mesa Verde National Park
 - Rocky Mountain National Park
- **Florida**
 - Castillo de San Marcos National Monument
 - Everglades National Park
 - Gulf Islands National Seashore
- **Georgia**
 - Fort Pulaski National Monument
- **Idaho**
 - Craters of the Moon National Monument
- **Massachusetts**
 - Adams National Historic Site
 - Cape Cod National Seashore
 - John F. Kennedy National Historic Site
 - Longfellow National Historic Site
 - Minute Man National Historical Park
 - Salem Maritime National Historic Site

 - Yellowstone National Park

Entrance Fees, Use Fees and Special Permits

Summarization of the 1979 Federal Recreation Fee Program data is provided in Tables 3, 4, and 6. More specific data is provided in the appendix (Exhibits B, C, and D). The guidelines provided by HCRS allow each agency to define the term "management unit" in accordance with its own usage.

The Bureau of Land Management has improved data collection methods which they have employed to report fee and visitation data.

The Water and Power Resources Service has included only preliminary data in this report. The pending conversion from a calendar year to fiscal year reporting schedule will alleviate the untimeliness of the present reporting schedule.

	1971	1972	1973	1974	1975	1976
BLM	19	24	9	1	NA	NA
WPRS	79 ^d	28	7	2	62	28
FWA	9	9	9	9	NA	NA
TOTAL	107	61	17	12	62	56

NA = Not Applicable, WPRS only agency with entrance fees

- ^a Use fee management units apply to overnight camping units only.
- ^b Potential use fee management units do not apply, as no additional areas would be eligible for fee charges without further site modification.
- ^c Forest Service reports that its "special permit fee units" contain the same facilities as use fee units, but were available on a reservation basis. Therefore, special management units, their visitation, fees collected, etc., are reported in the use fee column.
- ^d In general the WPRS "management units" for the purposes of this report are individual national parks and national monuments.
- ^e Does not include Great Falls National Park, VA where entrance fees are collected by Fairfax County to retire a debt from a land exchange.
- ^f The Corps of Engineers, by law, does not have any special permit or entrance fee management units. All Corps areas which have been developed to meet Federal requirements for establishing use fees are designated as fee areas.

NOTE - Over the Life of the Deposit = Potential Production

- The increase in EIA capacity resulted from data collection improvements
- The water and power resources between and within the units are not shown for comparison

National Park Service Visitor Transportation Fees (VTS)

In 1979, two areas of the National Park System charged recreation use fees for visitor transportation systems (VTS). In recent years there have been proposals to charge fees at other parks which provide visitor transportation. However, baseline data has indicated that few VTS are capable of paying operating expenses unless high, unreasonable fees are charged. Since this is inconsistent with the intentions of the National Park Service and the Congress, the Park Service's position is:

Whenever feasible, a reasonable fee will be charged to cover a portion of VTS operating costs. The fee will be based in part upon the cost and in part upon the service provided and its relationship to other park facilities and services.

There are six VTS proposals pending that would allow the NPS to protect resources through control of traffic congestion, with reduced energy consumption; and provide valuable services to visitors.

Incorporated in the VTS fee proposal are criteria for visitor transportation fees. These criteria were formalized to insure equity service-wide.

In 1975, two areas of the National Park System charged recreation use fees for visitor transportation services (VTS). In recent years there have been proposals to charge fees at other parks which provide visitor transportation. However, existing laws and regulations that for VTS are capable of being operating systems which, reasonable fees are charged. Since this is inconsistent with the mission of the National Park Service and the Congress, the Park Service's position is:

Wherever feasible, a reasonable fee will be charged to cover a portion of VTS operating costs. The fee will be based in part upon the cost and in part upon the service provided and its relationship to other park facilities and services.

There are six VTS purposes being that would allow the VTS to protect resources through control of traffic congestion, with reduced energy consumption and provide vehicle services to visitors.

Incorporated in the VTS fee proposal are criteria for visitor transportation fees. These criteria were formulated to insure equity service-wise.

1979 Visitation

This is the fifth annual visitation report providing data with acceptable consistency among the seven Federal agencies for both Fee and Non-Fee Management Areas.

In calendar year 1979 the Federal Fee and Non-Fee Recreation Areas had over 1.7 billion Recreation Days or 6.6 billion visitor hours of use. The Forest Service, the Corps of Engineers, PART TWO: National Park Service reported the majority of visitors.

When combined, these three agencies accounted for 82 percent of the total visitor hour use. Should the reader be unfamiliar with the units of measurement (visitor hours and recreation days) please refer to "Definitions" on pages 94 and 95.

VISITATION DATA

Public Law 93-393 (88 Stat 192) authorized the seven Federal land-managing agencies to charge fees if the area at which fees are charged provides certain specified outdoor recreation facilities, equipment or services at Federal expense. A Federal management unit, as referred to in this section, is one that meets this criteria; a Federal non-fee management unit is one which does not meet this criteria or is faced with impractical circumstances for collecting fees.

The nature of some recreation activities dictate that some visitation figures be based on estimates requiring the use of various techniques. In truth, all agencies depend to some degree on estimations since most Federal lands have no entrance control points.

Visitation to Federal areas is delineated for individual states in the appendix (Exhibit B) and summarized in table 1 through 9.

1947-1948

ARMY SECRETARY

1979 Visitation

This is the fifth annual visitation report providing data with acceptable commonality among the seven Federal agencies for both Fee and Non-Fee Management Areas.

In calendar year 1979 the Federal Fee and Non-Fee Recreation Areas had over 1.7 billion Recreation Days or 6.6 billion visitor hours of use. The Forest Service, the Corps of Engineers, and the National Park Service reported the majority of visitors.

When combined, these three agencies accounted for 82 percent of the total visitor hour use. Should the reader be unfamiliar with the units of measurement (visitor hours and recreation days) please refer to "Definitions" on pages 54 and 55.

Public Law 93-303 (88 Stat 192) authorizes the seven federal land-managing agencies to charge fees if the area at which fees are charged provides certain specialized outdoor recreation facilities, equipment or services at federal expense. A federal management unit, as referred to in this section, is one which meets this criteria; a federal non-fee management unit is one which does not meet this criteria or is faced with impractical circumstances for collecting fees.

The nature of some recreation activities dictate that some visitation figures be based on estimates requiring the use of various techniques. In truth, all agencies depend to some degree on estimations since most federal lands have no entrance control points.

Visitation to Federal areas is delineated for individual states in the appendixes (exhibit E) and summarized in table 7 through 9.

Agency	Visitor Hours		Recreation Days	
	Existing	Potential	Existing	Potential
NPS	416,732.4	133,475.4	9,389.9	10,214.3
(See other agencies with visitation on)				

1937 Visitation

This is the fifth annual visitation report providing data with acceptable comparability among the seven Federal agencies for each year and year-to-year.

In calendar year 1937 the Federal Bureau of Investigation and the Federal Bureau of Prisons reported 1.7 million visitation hours or 8.6 million visitor hours of work. The Forest Service, the Corps of Engineers, and the National Park Service reported the majority of visitors.

When combined, these three agencies accounted for 82 percent of the total visitor hours. Should the reader be unfamiliar with the units of measurement (visitation hours and recreation days) please refer to "Definitions" on pages 24 and 25.

Public Law 93-403 (88 Stat 1937) authorizes the seven Federal land-managing agencies to charge fees in the areas in which fees are charged provide certain specified outdoor recreation facilities, equipment or services as Federal expenses. A Federal management unit, as referred to in this section, is one which meets this criteria, a Federal non-fee management unit is one which does not meet this criteria or is faced with exceptional circumstances for collecting fees.

The nature of some recreation activities differs from visitation figures as based on estimates resulting from the use of various techniques. In such, all agencies depend to some degree on estimations since most Federal lands have no entrance control points.

Visitation to Federal areas is delineated for individual areas in the Appendix (Exhibit B) and summarized in Table 1 through 9.

Table 7

Annual Visitation to Use, Entrance and Special
Permit Fee Management Units by Agency (in thousands)

A. Annual visitation to use fee management units

Agency	Visitor Hours		Recreation Days	
	Existing	Potential	Existing	Potential
BLM ^a	10,335.2	24,417.8	849.4	3,892.8

CE ^b	125,524.2		10,542.4	
FS ^c	320,988.0		39,317.1	
FWS	437.8	157.0	36.5	13.1
NPS	829,124.0	237,741.4	123,313.5	53,320.2
TVA	6,700.0		527.0	
Total	1,297,298.2	262,325.5	175,253.9	57,227.9

^a Bureau of Land Management annual visitation figures pertain only to camping areas

^b The Corps of Engineers annual visitation figures pertain only to camping areas and each recreation day is equivalent to 12 visitor hours

^c Visitation to special permit fee management units is included in the user fee management unit column

B. Annual visitation to entrance fee management units

Agency	Visitor Hours		Recreation Days	
	Existing	Potential	Existing	Potential
NPS	416,752.4	135,079.1	58,822.9	42,031.5

(No other agencies with such visitation)

Table 7

Annual Visitation to U.S. Entrance and Special
 Permit Fee Management Units by Agency (in thousands)

A. Annual visitation to fee management units

Agency	Visitation		Entrance Days	
	Existing	Potential	Existing	Potential
BLM	10,312.3	21,417.8	819.4	3,882.8
WFO	1,188.0	9.3	688.0	1.8
CO	12,334.2		10,512.4	
NS	10,988.0		39,311.1	
WFS	437.6	137.0	36.2	13.1
WFO	69,136.4	217,741.4	123,813.5	21,330.2
WFA	3,708.0		337.0	
Total	1,201,208.2	262,935.5	175,533.9	27,237.9

a. Bureau of Land Management annual visitation figures pertain only to camping areas.
 b. The Corps of Engineers annual visitation figures pertain only to camping areas and each recreation day is equivalent to 12 visitor hours.
 c. Visitation to special permit fee management units is included in the year the management unit closes.

B. Annual visitation to entrance fee management units

Agency	Visitation		Entrance Days	
	Existing	Potential	Existing	Potential
WFS	418,723.4	122,809.1	26,822.9	42,031.2

(The above statistics with each visitation)

C. Annual visitation to special permit fee management units

Agency	Visitor Hours		Recreation Days	
	Existing	Potential	Existing	Potential
BLM	8,293.2	17,765.0	486.4	2,784.0
FWS ^c	128.5	978.0	10.7	81.5
NPS	85,850.3	64,233.5	10,891.3	13,442.0
Total	94,272.0	82,976.5	11,388.4	16,307.5

(No other agencies with such visitation)

^c Fish and Wildlife Service special permit fee management units are sometimes the same areas; hence, "dual counting" is recognized.

Table 8

Comparison of Public Use on Federal Fee, Non-Fee and Total Fee/Non-Fee Recreation Areas by Agency. (Based on Visitor Hours)

Agency	Fee ^a Areas	Non-Fee Areas	Total Fee/ Non-Fee Areas
BLM	5.53%	8.50%	7.87%
WPRS	0.30%	7.75%	6.16%
COE	8.85%	34.96%	29.40%
FS	0.04%	.47%	0.38%
FWS	22.63%	44.21%	39.62%
NPS	62.18%	2.56%	15.24%
TVA	0.47%	1.55%	1.32%
Total	100.00%	100.00%	100.00%

^a Fee Areas column includes only the "Use" and "Entrance" Fees.

C. Annual visitation to special periods for management units

Agency	Visitation Hours		Hours/Day	
	Existing	Potential	Existing	Potential
WMA	8,203.2	11,155.2	188.4	2,784.0
WPS	128.2	918.2	10.7	81.2

^a Water and Power Resources Service uses a Visitor-Day Definition which is defined as "a significant amount of time spent by one individual in a particular activity during a 24-hour period," which is equivalent to a "Recreation Day."

^b Includes National Wildlife Refuge System with the exception of fish hatcheries. Recreation Days are synonymous with total visits.

^c Each Recreation Day equals 12 Visitor Hours.

^d The Corps of Engineers applied a factor of 4.4 hours for converting recreation days to visitor hours.

^e In the National Park Service, Recreation Days are determined by taking the figure for each park having only day use facilities as being equal to total visits. In parks with overnight facilities, total visits were added to overnight stays to obtain Recreation Days.

NOTE: The amount of Visitor Hours spent at non-fee management units operated by the Corps of Engineers is overstated in the 1978 report. The adjusted number is 1,839,598.2.

Federal Recreation Fee Program Public Evaluation

Beginning in 1974, an annual public evaluation has been conducted by the BUREAU to monitor the effectiveness of the federal recreation fee program. Staffs of the seven Federal agencies advise that this evaluation also has proven to be a beneficial tool for Federal agency planning. An interesting by-product of the evaluation is the collection of public needs and comments related to improving the fee program and Federal recreation facilities.

PART THREE:

ONSITE EVALUATIONS

STUDIES AND TRENDS IN FEES

Heritage Conservation and Recreation Regional Office conduct a minimum of 12 onsite evaluations at areas listed on the reverse side of the evaluation form (Exhibit F). Comments of the public are collected per site, and brochures, fact sheets, and other appropriate information are distributed to the general public.

Historic sites charging fees are included in evaluations as well as the specific sites listed on the reverse of the evaluation form. This provides a cross section of areas managed by all seven Federal land-managing agencies.

The 1975 evaluations were conducted from June 1 through December 31 in order to obtain a sampling of comments from fall and winter, as well as summer visitors.

There are two major subject areas in the evaluation: "Agency Implementation" and "Public Reaction and Understanding" (Exhibit F). The "Agency Implementation" portion of the evaluation is concerned with three points: (1) the level of knowledge possessed by land managing agency personnel; (2) placement of signs designating fee areas; and (3) placement of signs at entrances which specify fees and charges.

Information derived from the "Public Reaction and Understanding" portion of the evaluation focuses on the level of visitors' knowledge of the Golden Eagle/Golden Age Passports and other fees and charges. Visitors are asked as to their satisfaction with the facilities and their feelings on the comparability of fees charged at other similar federal recreation sites. They are also asked how acceptable each type of fee is to them.

Federal recreation sites were visited; of these, 34 were operated by the Forest Service, 20 by the National Park Service, 13 by the Corps of Engineers, 9 by the Fish and Wildlife Service, 5 by the Bureau of Land Management, 3 by the Water and Power Resources and 2 by the Tennessee Valley Authority. An average of 443 persons responded to each question.

The "Agency Implementation" data showed 98% (87% in 1974) of the sites visited had properly posted signs. The fees were clearly posted 100% (87% in 1974) of the time and agency site attendants were knowledgeable about the fee program 98% (74% in 1974) of the time.

The "Public Reaction and Understanding" section indicated that of the 147 respondents, 54% (48% in 1974) had heard of the Golden Eagle Passport and 54% (33% in 1974) had heard of the Golden Age Passport and 13% were familiar with

Federal Recreation Fee Program Onsite Evaluation

Beginning in 1974, an annual onsite evaluation has been conducted by the HCERS to monitor the effectiveness of the federal recreation fee program. Staffs of the seven federal agencies advise that this evaluation also has proven to be a beneficial tool for federal agency planning. An interesting by-product of the evaluation is the collection of public needs and comments related to improving the fee program and federal recreation facilities.

Heritage Conservation and Recreation Service Regional Offices conduct a minimum of 12 onsite evaluations at areas listed on the reverse side of the evaluation form (Exhibit F). At least five members of the public are contacted per site, and brochures, fact sheets, and other appropriate information are distributed to both park attendants and the general public.

Historic sites charging fees are included in evaluations as well as the specific sites listed on the reverse of the evaluation form. This provides a cross section of areas managed by all seven federal land-managing agencies.

The 1979 evaluations were conducted from June 1 through December 31 in order to obtain a sampling of comments from fall and winter, as well as summer visitors.

There are two major subject areas in the evaluation: "Agency Implementation" and "Public Reaction and Understanding" (Exhibit F). The "Agency Implementation" portion of the evaluation is concerned with three points: (1) the level of knowledge possessed by land managing agency personnel; (2) placement of sign designating fee areas; and (3) placement of signs at entrances which specify fees and charges.

Information derived from the "Public Reaction and Understanding" portion of the evaluation focuses on the level of visitors' knowledge of the Golden Eagle/Golden Age Passports and other fees and charges. Visitors are queried as to their satisfaction with the facilities and their feelings on the comparability of fees charged at other similar federal recreation sites. They are also asked how acceptable each type of fee is to them.

Federal recreation sites were visited; of these, 34 were operated by the Forest Service, 20 by the National Park Service, 13 by the Corps of Engineers, 9 by the Fish and Wildlife Service, 8 by the Bureau of Land Management 3 by the Water and Power Resources and 2 by the Tennessee Valley Authority. An average of 480 persons responded to each question.

The "Agency Implementation" data showed 96% (83% in 1978) of the sites visited had properly posted signs. The fees were clearly posted 100% (82% in 1978) of the time and agency site attendants were knowledgeable about the Fee Program 99% (74% in 1978) of the time.

The "Public Reaction and Understanding" section indicated that of the 487 respondents, 50% (46% in 1978) had heard of the Golden Eagle Passport and 52% (51% in 1978) had heard of the Golden Age Passport and 79% were familiar with

Federal Recreation Program Office Evaluation

Beginning in 1970, an annual office evaluation has been conducted by the FRO to monitor the effectiveness of the Federal Recreation Program. Staff of the seven Federal agencies which have been shown to be a beneficial tool for Federal agency planning. An interesting by-product of the evaluation is the collection of public needs and comments related to improving the program and Federal recreation facilities.

Recreation Development and Recreation Service Regional Offices conduct a minimum of 12 on-site evaluations at areas listed on the reverse side of the evaluation form (Exhibit 7). At least five members of the public are contacted per site, and Recreation, Land Management, and other appropriate information are distributed to each park attendant and the general public.

Historic sites changing from are included in evaluation as well as the specific sites listed on the reverse of the evaluation form. This provides a cross section of areas managed by all seven Federal land-managing agencies.

The 1970 evaluations were conducted from June 1 through December 31 in order to obtain a sampling of comments from fall and winter, as well as summer visitors.

There are two major subject areas in the evaluation: "Agency Implementation" and "Public Reaction and Understanding" (Exhibit 7). The "Agency Implementation" portion of the evaluation is concerned with three points: (1) the level of knowledge possessed by land managing agency personnel; (2) placement of signs indicating the area; and (3) placement of signs at entrances which specify fees and charges.

Information derived from the "Public Reaction and Understanding" portion of the evaluation focuses on the level of visitors' knowledge of the Golden Gate/Golden Age Passports and other fees and charges. Visitors are queried as to their satisfaction with the facilities and their feelings on the complexity of fees charged at other similar Federal recreation sites. They are also asked how acceptable each type of fee is to them.

Federal recreation sites were visited; of these, 34 were operated by the Forest Service, 30 by the National Park Service, 13 by the Corps of Engineers, 3 by the Fish and Wildlife Service, 8 by the Bureau of Land Management, 1 by the Water and Power Resources and 2 by the Tennessee Valley Authority. An average of 400 persons responded to each question.

The "Agency Implementation" data shows 80% (83% in 1968) of the sites visited had properly posted signs. The fees were clearly posted 100% (82% in 1968) of the sites and agency site attendants were knowledgeable about the fee program 100% (75% in 1968) of the sites.

The "Public Reaction and Understanding" section indicated that of the 407 respondents, 50% (44% in 1968) had heard of the Golden Age Passport and 52% (51% in 1968) had heard of the Golden Age Passport and the fees further visit

user fees. Only 35% (24% in 1978) had heard of and understood the benefits of Special Permit fees. For further information concerning the program evaluation, refer to Exhibits G.

35

Along with the Fee Program Onsite Evaluations, casual conversation resulted in the following nationwide results:

1. Has the increased price of fuel affected your vacation plans in any way?
 - a. Planned shorter trips
 - b. Same distance, longer time period
 - c. Fewer trips
 - d. No change
 - e. Other

Results

Seventy two percent (72%) of the respondents said they would either plan shorter trips, fewer trips, and/or travel the same distance for their vacation but stay for a longer period of time.

Approximately twenty five percent (25%) of the respondents claimed their vacation plans have not been changed as a result of fuel prices.

Many respondents offered other ways that they have adjusted their vacations in light of the gas prices. Some of these adjustments were:

- ° to sell the camper and replace it with a tent trailer.
- ° to use public transportation
- ° to combine vacations with friends, therefore, pulling only one RV instead of two
- ° to call ahead to inquire about fuel availability
- ° to take short trips but spend the same amount of time
- ° to plan the trip more carefully (road mapping, distances, etc.)
- ° to purchase a smaller car
- ° to avoid vacationing in certain eastern States, due to uncertain gas availability

2. Are you familiar with other recreation facilities in the area?

Yes	66%
No	34%

3. Should bicycle paths and trails be provided in campgrounds?

Yes*	61%
No	39%

*Several of the people indicated that they preferred foot trails as opposed to bicycle trails

Along with the two previous questions, casual conversation resulted in the following additional results:

1. Has the increased price of fuel affected your vacation plans in any way?

- a. Planned shorter trips
- b. Same distance, longer time period
- c. Fewer trips
- d. No change
- e. Other

Results:

Twenty-two percent (22%) of the respondents said they would either plan shorter trips, longer time period, or travel the same distance for their vacation but stay for a longer period of time.

Approximately twenty-five percent (25%) of the respondents claimed their vacation plans have not been changed as a result of fuel prices.

Many respondents offered other ways that they have adjusted their vacations in light of the gas prices. Some of these adjustments were:

- to sell the camper and replace it with a tent trailer,
- to use public transportation
- to combine vacations with friends, therefore, pulling only one RV instead of two
- to call ahead to inquire about fuel availability
- to take short trips but spend the same amount of time
- to plan the trip more carefully (road mapping, distances, etc.)
- to purchase a smaller car
- to avoid vacationing in certain eastern States, and
- to maintain gas availability

Are you familiar with other recreation facilities in the area?

- Yes
- No

Should bicycle paths and trails be provided in campgrounds?

- Yes
- No

Comments of the people indicated that they preferred foot trails as opposed to bicycle trails.

4. What type of campsites do you prefer? (environment)

developed	39%
primitive	25%

The remainder of the respondents had various descriptions for a campsite environment which could not be categorized. Some of the descriptions were:

- Tent sites separate from trailer sites
- Specifically designated RV campsites
- Located in a natural, quiet, and spacious area
- Located near both fresh water and salt water fishing areas

Of special note, is a significant majority of respondents who expressed interest in water oriented campsites. Also, there was indication that most respondents would prefer the site to be forested

5. Would you vacation at a major metropolitan, Federal park located near a major city?

Yes	33%
No	67%

6. Do you know how and where to get information on these various recreation sites?

yes	70%
no	30%

Developed
Undeveloped

Yes
No

The remainder of the respondents had various descriptions for a specific environment which could not be categorized. Some of the descriptions were:

- * That sites separate from trailer sites
 - * Specifically designed W campsites
 - * Located in a natural, quiet, and open area
 - * Located near both fresh water and salt water fishing areas
- Of special note, is a significant majority of respondents who expressed interest in water oriented recreation. Also, there was indication that most respondents would prefer the site to be forested.
- Would you consider it a major metropolitan, Federal park located near a major city?

Yes
No

Yes
No

Do you know how and where to get information on these various recreation sites?

Yes
No

Yes
No

National Park Service

Pecos National Monument (NM)

- ° No fees are currently charged, however, the area receives heavy use; most of the NPS personnel have transferred from other fee areas and are very knowledgeable of the fee program

Colorado National Monument (CO)

- ° Most visitors were satisfied with the daily entrance fee of \$1

Mt. McKinley National Park (AK)

- ° The standard fee area sign was not posted at the campground at the Riley Creek visitor information station (Teklanika Campground)

Pinnacles National Monument (CA)

- ° Golden Eagle Passports should be available by Thanksgiving for the year to come

Fort Pulaski National Monument (GA)

- ° There have been no problems with the Federal Recreation Fee Program according to Director of Visitor Services

Castillo de San Marcos National Monument (FL)

- ° The fee booth nearest the monument is an intrusion in the historic site because of its small wooden appearance adjacent to an imposing "coquina" fortress
- ° The cash register in the collection booth has been vandalized
- ° The cash register in the collection booth has been thrown into the moat
- ° The possibility of collecting a parking fee in lieu of an entrance fee should be considered. By doing so, the monument's parking area could be controlled. The parking area is being used by people taking all day excursions to an adjacent historic district. The number of visitors to the monument has decreased partially due to the inability to secure a parking space
- ° It is difficult, many times, to ask visitors for more than their name and birthdate when purchasing a Golden Eagle or Golden Age Passport, especially when a busload of visitors approach the booth

Forest Service

Many of the sites visited were using the "honor system" of fee collection.

Oregon Dunes National Recreation Area (OR)

- ° The volunteer campground host was well informed of the Federal Recreation Fee Program

William Kent - Tahoe Basin (CA)

- ° A quiet campground with very few complaints

Nevada Beach - Tahoe Basin (CA)

- ° The beach users complain about the fees

Jefferson National Forest-Cave Mountain Campground

- ° Strong volunteer program in the area
- ° Area is voluntarily cleaned and picked up by campers

Bureau of Land Management

Price Canyon Recreation Area (UT)

- ° The area gets a considerable amount of use according to a BLM employee. The area was well maintained and has adequate facilities, including restrooms and running water

Corps of Engineers

Mill Creek Recreation Area (OH)

- ° Information dissemination, fee collection, and security are successfully implemented in this area

Leach Lake (MN)

- ° The area was maintained well and extremely clean

Many of the sites visited were using the "snow system" of tree collection.

Oregon Forest National Restoration Area (OR)

The volunteer program has been well informed of the Federal

Restoration Program

William Lane - Forest Service (CA)

A point program with very few complaints

David Lane - Forest Service (CA)

The point program has been well informed of the Federal

Restoration Program

Forest volunteer program in the area

Area is voluntarily cleaned and picked up by citizens

Division of Forest Management

Forest Service National Area (UT)

The area has a substantial amount of use according to a BLM
survey. The area was well maintained and has adequate
facilities, including restrooms and running water

Division of Forest Management

Forest Service National Area (UT)

Information disseminated, the collection, and security are
adequately implemented in this area

Forest Service (UT)

The area was maintained well and extremely clean

Handwritten notes and stamps at the bottom of the page, including a date stamp that appears to read "JAN 1971".

• There was a large increase in Golden Age Passport users at this site in 1979

Dam Site Park (AR)

• The site is used efficiently and operates under capacity visitation during summer months

• Have complimented the shuttle bus system

• Hot showers and firewood were requested by several campground users

• The concession store did not have fuel for a particular backpacking stove

• Public meetings should be held with local residents to discuss the proposed management regulations prior to establishing new federal parks (i.e., Gates of the Arctic)

Glacier National Monument (CO)

• The National Park Service employees were complimented for their hospitality

• Wanted more electric and sewage hook ups in campground

Arizona Desert National Lakeshore (AZ)

• Need a lowrider from base of dunes to the top

• Need large parking area (Mt. Baldy area)

• Need trash receptacles strategically located

Algonquin House National Historic Landmark (IL)

• Would appreciate picnic facilities (small area)

• Need additional signs for location of area

• Need outside trash receptacle

National Park Service

Mt. McKinley National Park-Teklanika Campground (AK)

- ° Would prefer the reinstatement of the campground reservation system or a decrease in the allowable length of stay at Wonder Lake to improve their chances of being able to use that particular campground
- ° Users complimented the shuttle bus system
- ° Hot showers and firewood were requested by several campground users
- ° The concession store did not have fuel for a particular backpacking stove
- ° Public meetings should be held with local residents to discuss the proposed management regulations prior to establishing new federal parks (i.e., Gates of the Arctic)

Colorado National Monument (CO)

- ° The National Park Service employees were complimented for their congeniality
- ° Wanted more electric and sewage hook ups in campground

Indiana Dunes National Lakeshore (IN)

- ° Need a towrope from base of dunes to the top
- ° Need large parking area (Mt. Baldy area)
- ° Need trash receptacles strategically located

Lincoln Home National Historic Landmark (IL)

- ° Would appreciate picnic facilities (small area)
- ° Need additional signs for location of area
- ° Need outside trash receptacle

National Park Service

Mr. Secretary National Park-Indian Commission (AZ)

Would prefer the restoration of the neighborhood reservation system or a decrease in the allowable length of stay at tourist camps to improve their quality of being able to use that particular campground.

Have requested the state to have

Not shown and therefore were requested by several campground users

The committee seems to not have time for a particular backpacking

Public meetings should be held with local residents to discuss the proposed management regulations prior to establishing new federal parks (i.e., State of the Art)

Colorado National Monument (CO)

The National Park Service employees were disappointed for their

Visited many electric and sewage host sites in campground

Indiana Jones National Monument (IN)

Need a survey from base of fence to the top

Need large parking area (Mr. Kelly area)

Need more restrooms strategically located

Indiana Jones National Monument (IN)

Would appreciate picnic facilities (small area)

Need additional signs for location of area

Need outside trash receptacle

Colonia Creek (WA)

- Would like to see more primitive camping

White River (WA)

- Should not need to pay entrance fee when there are use fees in the same park
- The Corps of Engineer campgrounds provide more for the same price

Goodell Creek (WA)

- Federal taxes cover the services so why are there entrance fees
- Should not charge use fees in entrance fee areas

Ohanapecosh (WA)

- Federal recreation areas should be 100 percent tax supported
- Facilities are excellent

Pinnacles National Monument (CA)

- Very nice areas
- Need a large campground

Blue Ridge Parkway-Mill Mountain Campground (VA)

- Wish they had showers and information booth

White Mountain National Forest (NH)

- Tremendously clean (Jigger Johnson Campground)
- Ideal Campground (Jigger Johnson Campground)
- Water is rusty. (Waterville)
- Fireplace grates are broken (Waterville)

Jefferson National Forest (VA)

- Maintained well, clean and neat, Quiet; enjoy the swimming areas (Cave Mountain Campground)
- Maintained well, appreciate the amenities and decided to stay an additional day (Cave Mountain campground)

- We like the area very much. (Mt. Rogers National Recreation Area)
- Excellent condition. Designed well and kept quiet (Mt. Rogers National Recreation Area)

Forest Service

Chugach National Forest (AK)

- Firewood should be available at Russian River campground
- Firewood should be available
- Motorcycles should be prohibited in recreation areas (Portage, Glacier Recreation Area)

Black Hills National Forest (SD)

- Camping pads need to be closer to the water (Sheridan Lake Campground)
- Water outlets should be marked better to make them easier to locate (Sheridan Lake Campground)
- The public felt that the facilities in the campground were very nice (Pactola Campground)
- Showers should be provided (Pactola Campground)
- Campground was noisy (Pactola campground)

Lolo National Forest (MT)

- Enjoy Forest Service areas and don't camp anywhere else

Lake Michigan Recreation Area (MI)

- Beautiful view
- Do not wish to see motor vehicles of the road

Breevort Lake Campground (MI)

- The beach is no longer kept clean
- The area can not be improved and should be left as it is
- Need special spaces for large trailers
- Showers would be nice to have

- Need play things for children
- Hardin Ridge Campground (IN)
- Area is beautiful
 - County road to area is poorly marked and in bad condition
 - Rangers do not patrol enough
 - Toilets need better maintenance such as lights in the stalls

Coleman Lake (AL)

- A boat rental service is needed

Lake Chinakee (AL)

- Very nice facility
- The facility is well maintained

Oregon Dunes Natinal Recreation Area (OR)

- There is no entrance sign off Highway 101 (Bluebill)
- Federal taxes should cover all services instead of charging fees (Bluebill)
- Forest Service campgrounds on the coast were better than State campgrounds in terms of cost (Bluebill)

Hiawatha National Forest - Carp River Campground (MI)

- More campground spaces are needed in the summer
- Developed area is nice

Sante Fe National Forest Redondo Campground (NM)

- Would like to see more development such as electricity recreation vehicle motor homes (Jack Creek Campground)
- Need more interpretive trails (Redondo Campground)
- Make more areas in the forest accessible to the disabled camper
- More areas should be free because "it cost so much to get here, why charge for its use" (Paliza Campground)

- ° Would like showers and some interpretive programs, such as the National Park Service provides (Paliza Campground)

Carson National Forest (NM)

- ° Would like to see more campgrounds (Columbine Campground).
- ° The area needs better police patrol A lot of the theft and vandalism could be prevented (Santa Barbara Campground)

Fallen Leap Lake, Lake Tahoe Basin (CA)

- ° Satisfied
- ° Showers needed
- ° Not maintained as well as others
- ° Restrooms need cleaning, need showers; otherwise the area is fine
- ° Trails and signs appear run down and nobody was at the entrance station

William Kent - Tahoe Basin (CA)

- ° Fees here are cheaper than other public campgrounds, showers are needed
- ° Need electricity and water hookups as well as showers
- ° The restrooms are exceptionally clean
- ° This is a nice campground and is in a good location

Navada Beach - Tahoe Basin (CA)

- ° The fee schedule should be improved
- ° Sites should be returned to the lakeshore
- ° Dislike the reservation system
- ° Dislike ticketron; fees are lower than at most places
- ° Could charge a higher fee and it would be acceptable
- ° Maintenance is poor, the gate is unmanned
- ° Do not need showers

Bureau of Land Management

Loon Lake (OR)

- This is the best federal camping area there is
- The dead tree branches in the children play area are a hazard
- Federal parks should not charge to enter.

Fishermens Bend (OR)

- The fee concept is exceptable for federal areas
- Federal fee areas give more for the dollar
- This is an excellent facility but something must be done about the mosquitoes

Brushkana River Campground (AK)

- A toll-free (800) phone number should be established for those people seeking federal recreation area information
- More campgrounds are needed in cities to provide a low cost lodging option to travelers

Fish and Wildlife Service

Kenai National Moose Range (AK)

- More campgrounds are needed in the Kenai region. Many of the existing campgrounds are too small and will not easily accommodate the large motor homes (Hidden Lake Campground)
- Maintenance of the campground could be improved by more frequent garbage pick-up and sanitation facility maintenance (Hidden Lake Campground)
- The boat ramp should be longer with a more gradual slope (Hidden Lake Campground)
- The campground should be patrolled several times per day (Hidden Lake Campground)

- Dogs should be leashed in the campground (Hidden Lake Campground)
- Firewood should be available (Hidden Lake Campground)
- The site was far more appealing prior to clearing the land to accommodate the larger parking area. (Kenai-Russian River Access Area)

Shiawassee National Wildlife Refuge (MI)

- Should be permitted to shoot ducks as well as geese
- Why can so many ducks and geese be killed in the south but not here?
- This area has improved immensely since last year

Crab Orchard National Wildlife Refuge (IL)

- Fees are acceptable

Corps of Engineers

Gavins Point Dam (SD)

- Bathrooms are dirty
- Showerheads are too low
- No firewood is available for campfires
- Water should be provided at camping pads
- Tent campers should be separated from trailer and pick-up truck campers

Oahe (SD)

- The picnic areas are located in the more desirable locations on the reservoir yet the campers are occupying the larger parking area. (Kenai-Russian River Access Area).

Council Grove Lake (KS)

- A swimming beach is needed
- Entrance fees should not be charged if the visitor is there for the sole purpose of fishing

- Needs Security and law enforcement
- The "locked gate concept" is good

Mill Creek Recreation Area (OH)

- The reservoir is used for flood control, therefore, the water level is raised and lowered causing problems with boats
- There is conflict between motor and sail boat use. A motor limit should be set for size and numbers
- A security problem exists in fee areas; young people are stealing things due to the lack of supervision
- The beach is poor quality; rock and clay bottom and shore, the beach area is not sloped toward the water in places thus causing large dropoffs, too much motor boating near swimming area

Leach Lake (MN)

- The water toilets were shut too early
- Should not have to pay 50 percent with the Golden Age Passport
- Water should be kept on until cold weather.

Dam Site Park (AR)

- Need electricity and hookups at campsites
- Fees are too high for the services provided
- The playground is great for children
- Raise the fees and provide more services

John F. Kennedy Park (AR)

- Need to install electrical hookups
- Fees are a little steep with no electricity
- Need a public telephone
- Entrance Fees would reduce vandalism
- Entrance fees should not be charged to visitors

Pine Meadows (OR)

- Federal taxes are supposed to be paying for the federal park facilities
- The fees charged here are very reasonable when comparing other federal facilities and their charges

Boardman, (OR)

- Free use of federal parks should be a benefit from paying federal taxes

Shoal Creek (GA)

- We plan to return here as often as possible

Sawnee (GA)

- Nicest campground we have ever visited
- The restrooms need to be repaired

Ky-en Campground (CA)

- Nice area and much cheaper than was expected
- Why pay to see part of the legacy you're born with?

Bu-Shay (CA)

- Nice area and maintained well

Tennessee Valley Authority

Rushing Creek Campground (TN)

- All money should be returned to the area in which it was collected and used to improve that area

"Public park and recreation agencies have traditionally paid the cost of the land, facilities, and programs under their administrations. However, publicly provided recreation services may well become a thing of the past as increased public demand, mounting inflation, and soaring energy costs put greater strain on shrinking local government budgets, and with the growing popularity of tax reform proposals, such as Proposition 13 in California, this problem of meeting greater demand for recreation with less money is expected to worsen. Federal, State and especially local governments will have to try new methods of financing to meet the growing strain." (The Third Nationwide Outdoor Recreation Plan, The Executive Report, p. 77)

A by-product of the austerity budgets "may be a greater reliance on user fees to support operation and maintenance costs. According to one study, the American public has shown a willingness to pay more for recreation services. The study also concluded that increasing user fees does not reduce park attendance in the long run. In fact, many recreation managers believe that fees encourage participation by indirectly discouraging vandalism and abuse of facilities. At present, user fees represent a relatively small proportion of Federal operation and maintenance budgets (6-10 percent). States, however, report that they recover an average of 25 percent of their operation and maintenance through user fees while counties have been collecting 20 percent of their O & M costs for most cities." (The Third Nationwide Outdoor Recreation Plan, the Executive Report, p. 85).

The public has consistently indicated, through various surveys, that they are willing to pay. In fact, a recent 1979 survey study prepared for the US Forest Service shows that 42 percent of all the respondents said they would like to see camping fees at state and national campgrounds high enough to cover all or most of the cost of operating them.

An alternative to increased user support is decreased services, although this is equally unacceptable. Fortune magazine (December 18, 1978) quoted a survey taken by the National Opinion Research Center which showed that a majority of all income groups wish more money would be spent on public services. Despite inevitable budget reductions, the demand for recreation continues to increase. To further support this fact, casual conversations with the public during the HCRS fee program onsite evaluations (p. 37), indicated that a large majority of people preferred highly developed campgrounds as opposed to primitive or less expensive campgrounds.

Shortly, user fees may be the only acceptable way to support those services the public to expect but which no longer receive adequate funds.

"Public park and recreation agencies have traditionally paid the cost of the land, facilities, and program under their administration. However, publicly provided recreation services may well become a thing of the past as increased public demand, increasing inflation, and soaring energy costs put greater strain on existing local government budgets, and with the growing popularity of tax reform proposals, such as Proposition 13 in California, this problem is becoming greater demand for recreation with less money is expected to worsen. Federal, State and especially local governments will have to try new methods of financing to meet the growing needs." (The Third Nationwide Outdoor Recreation Plan, The Executive Report, p. 77)

A by-product of the executive budget "may be a greater reliance on user fees to support operation and maintenance costs. According to one study, the American public has shown a willingness to pay more for recreation services. The study also concluded that increasing user fees does not reduce park attendance in the long run. In fact, many recreation managers believe that fees encourage participation by indirectly discouraging vandalism and abuse of facilities. At present, user fees represent a relatively small proportion of total operation and maintenance budgets (3-10 percent). States, however, report that they receive an average of 25 percent of their operation and maintenance through user fees while counties have been collecting 20 percent of their O & M costs for most states." (The Third Nationwide Outdoor Recreation Plan, The Executive Report, p. 82)

The public has consistently indicated, through various surveys, that they are willing to pay. In fact, a recent 1979 survey study prepared for the US Forest Service shows that 82 percent of all the respondents said they would like to see charging fees at state and national campgrounds high enough to cover all or most of the cost of operating them.

An alternative to increased user support is decreased services, although this is equally unacceptable. Forums magazine (December 16, 1978) quoted a survey report by the National Opinion Research Center which showed that a majority of all income groups wish more money would be spent on public services. Despite inevitable budget reductions, the demand for recreation continues to increase. To further support this fact, casual conversations with the public during the NPS 50th program on-site evaluations (p. 37), indicated that a large majority of people preferred highly developed campgrounds as opposed to primitive or less expensive campgrounds.

Finally, user fees may be the only acceptable way to support these services the public is expected to which no longer receive adequate funds.

Conclusion

Progressively, the federal recreation fee program is gaining the year to year continuity necessary to effectively service the public. The Federal Interagency Recreation Fee Task Force has been instrumental in the advancement of the program and despite the "growing pains" that are inherent in a maturing program, the federal agencies have cooperated extensively. This program is a working model of interagency unity, which is especially needful in managing our nation's resources.

The Department of the Interior is in the midst of amending pertinent rules which will allow a more equitable means of setting fees. It is anticipated that the state and private sector will benefit by this system.

The Golden Eagle/Golden Age passports, are still proving to be a bargain to the public. A decline in the number of passports issued has been noticed since the nation's fuel cost has risen and the availability of fuel has become a deterrent to travelers. Entrance fees are not being affected by inflation, which means the value of the annual passport will remain the same indefinitely.

DEFINITIONS

CARRYING CAPACITY:

The capacity of a given recreation area can be defined four ways; (1) ability of existing natural resources to withstand use, (2) engineering capacity of installed facilities, (3) desired quality of recreation experience, and (4) public health and safety. Any one of the four capacities may be the limiting factor on a specific area, at a specific time, and while three of the ways are generally recognized as being quantifiable, there is less agreement on the determination of a desired quality of experience.

INSTANT CAPACITY:

The number of people that a recreation facility or area can reasonably accommodate at one time; some researchers refer to this as PAOT (persons at one time) or OTU (one time use). See CARRYING CAPACITY.

FEDERAL FEE AREA: (or management unit)

An area of Federal land designated by the responsible administering agency for the collection of entrance, use and/or special permit fees pursuant to Public Law 93-303.

FEDERAL NON-FEE AREA: (or management unit)

An area of Federal land which is not designated as a Federal recreation fee area.

RECREATION DAY:

A visit by one individual to a recreation development or area for recreation purposes during any reasonable portion or all of a 24-hour period.

RECREATION FEE PROGRAM:

The collection of fees and charges for entrance to or use of certain Federal recreation areas or facilities.

CARSTON FACILITY

The capacity of a given recreation area can be defined four ways: (1) ability of existing natural resources to withstand use, (2) engineering capacity of installed facilities, (3) desired quality of recreation experience, and (4) public health and safety. Any one of the four capacities may be the limiting factor on a specific area, at a specific time, and while three of the ways are generally recognized as being quantifiable, there is less agreement on the determination of a desired quality of experience.

EXISTENT CAPACITY

The number of people that a recreation facility or area can reasonably accommodate at one time, under reasonable relief to this as time permits at one time or over time (see also: CARSTON FACILITY).

FEDERAL FEE AREA:
(or management unit)

An area of Federal land designated by the responsible administration agency for the collection of entrance fees and/or special permits from persons to Public Law 92-503.

FEDERAL NON-FEE AREA:
(or management unit)

An area of Federal land which is not designated as a Federal recreation fee area.

RECREATION DAY

A visit by one individual to a recreation development or area for recreation purposes during any calendar day or all of a 24-hour period.

RECREATION FEE PROGRAM

The collection of fees and charges for recreation in or use of certain Federal recreation areas or facilities.

TYPES OF FEES:

(1) ENTRANCE FEE:

A fee charged at designated national parks, monuments, recreation areas, seashores, historic and memorial parks and sites administered by the National Park Service.

(2) USE FEE:

A fee charged for use of specialized sites, facilities, equipment, or services furnished at Federal expense.

(3) SPECIAL PERMIT FEE:

A fee charged for special recreation permits issued for uses such as group activities, recreation events, motorized recreation vehicles, and other specialized uses.

VISIT:

The entry of one person into a recreation area or site to carry on one or more recreation activities.

VISITATION:

The total number of persons entering and using a recreation area over a specified period of time.

VISITOR DAY:

Twelve visitor hours, which may be aggregated continuously, intermittently or simultaneously by one or more persons.

VISITOR HOUR:

The presence of one or more persons on an area of land or water for the purpose of engaging in one or more recreation activities during continuous, intermittent, or simultaneous periods of time aggregating 60 minutes.

(1) VISITOR TYPE:

A fee charged at designated national parks, monuments, recreation areas, museums, historic and memorial parks and other administered by the National Park Service.

(2) VISIT TYPE:

A fee charged for use of specialized sight, facilities, equipment, or services furnished at Federal expense.

(3) SPECIAL EVENT TYPE:

A fee charged for special recreation permits issued for uses such as group activities, recreation events, motorized recreation vehicles, and other specialized uses.

VISIT

The entry of one person into a recreation area or site to carry on one or more recreation activities.

VISITATION

The total number of persons entering and using a recreation area over a specified period of time.

VISITOR DAY

Twelve visitor hours, which may be aggregated continuously, intermittently or alternately by one or more persons.

VISITOR HOUR

The presence of one or more persons on or near or land or water for the purpose of engaging in one or more recreation activities during continuous, intermittent or simultaneous periods of time constituting an hour.

Establishment of recreation use fees.

(a) Recreation use fees shall be collected by all outdoor recreation administering bureaus of the Department of the Interior from within the strata of fees listed below provided that such fees are established in accordance with the following criteria:

(1) The direct and indirect cost to the Government;

(2) The benefit to the recipient;

(3) The public policy or interest served;

(4) The comparable recreation fees charged by other Federal and non-Federal public agencies within the same area of the management system in which the fee is charged;

(5) The economic and administrative

36 CFR 1227.9 ESTABLISHMENT OF RECREATION USE FEES

PROPOSED RULE TO AMEND 36 CFR 1227.9 AS IT
APPEARED IN THE FEDERAL REGISTER

issued by the Secretary of the Interior.

(a) Schedule of Recreation Use Fees

Camp and trailer sites	Up to \$4.00 per site per day (maximum)
Group campsite sites	Up to \$10.00 per site per day (maximum)
Designated sites accepting donations and use	Up to \$1.00 per site per day (maximum)
Boat	Up to \$10.00 per launch (daily)
Boat storage and launching	To be established at a daily rate in accord with the volume and length of the season
Swimming	To be established at a daily rate in accord with the volume and length of the season
Picnic and other areas of congregation	To be established at a rate in accord with the volume and length of the season
Ballfields	Up to \$5.00 daily per ballfield per person
Swimming pools	To be established at a daily rate in accord with the volume and length of the season
Overnight shelters	To be established at a daily rate in accord with the volume and length of the season
Climbing walls	To be established at a rate in accord with the volume and length of the season
Swimming beach use	Up to \$2 per person per day
Swimming and fishing permits	To be established at a daily rate in accord with the volume and length of the season
Storage of recreational boats	A maximum of \$1 per boat per day or fraction thereof
Storage of recreational boats	A maximum of \$1 per boat per day or fraction thereof
Storage of fishing boats	Up to \$1.5 per boat per day or fraction thereof
Recreation services	To be established at a rate in accord with the volume and length of the season
Special use areas (e.g., horse development)	Up to \$1.00 daily per site per person

Provided that in no event shall there be a charge for the use of any developed and adjacent natural facilities except the management in which the use is located and as of the following: Truck or trailer storage, swimming water, water, food, refuse collection, horse facilities, parking facilities, collection of the fee by an individual or agent of the bureau operating the facility, recreational water protection, and storage of boats for use during the season for which the fee is collected.

The administering bureau may establish a group rate for all of the above "Group Camping Fees" provided that the fee is comparable with the volume and length of the season, provided such rate is not less than \$10.00 per day per person. Such a group fee may also include the use of a particular facility, provided that the fee is comparable with the volume and length of the season.

The fee for boat storage developed, to be used in the case of boat storage facilities with special use facilities or services, shall be comparable to the fee for boat storage facilities and shall be collected in accordance with the volume and length of the season.

Establishment of recreation use fees.

(a) Recreation use fees shall be selected by all outdoor recreation administering bureaus of the Department of the Interior from within the schedule of fees listed below provided that such fees are established in accordance with the following criteria:

- (1) The direct and indirect cost to the Government;
- (2) The benefit to the recipient;
- (3) The public policy or interest served;

(4) The comparable recreation fees charged by other Federal and non-Federal public agencies within the service area of the management unit at which the fee is charged;

(5) The economic and administrative feasibility of fee collection; and

(6) Other pertinent factors.

(b) Recreation use fees may be established for other types of facilities in addition to those which are listed below in such amounts as are recommended by the Secretary of the Interior.

(c) Schedule of Recreation Use Fees:

Camp and trailer sites	Up to \$4.00 per site for overnight use. ¹
Group camping sites	Up to \$0.50 daily per site per person. ¹
Specialized boat launching facilities and services.	Up to \$1.50 per boat per day. ²
Lockers	Up to \$0.25 per locker daily.
Boat storage and handling	To be established at a daily rate in accord with the criteria set forth in this section.
Elevators	To be established at a daily rate in accord with the criteria set forth in this section.
Ferries and other means of transportation.	To be established at a rate in accord with the criteria set forth in this section.
Bathhouses	Up to \$0.50 daily per bathhouse per person.
Swimming pools	To be established at a daily rate in accord with the criteria set forth in this section.
Overnight shelters	To be established at a daily rate in accord with the criteria set forth in this section.
Guided tours	To be established at a rate in accord with the criteria set forth in this section.
Electrical hook-ups	Up to \$1 per hook-up per day.
Vehicle and trailer storage	To be established at a daily rate in accord with the criteria set forth in this section.
Rental of nonmotorized boats	A minimum of \$1 per boat per day or fraction thereof.
Rental of motorized boats	A minimum of \$5 per boat per day or fraction thereof.
Rental of hunting blinds	Up to \$10 per blind per day or fraction thereof.
Reservation services	To be established at a rate in accord with criteria set forth in this section.
Specialized sites (highly developed)	Up to \$1.50 daily per site per person.

¹Provided that in no event shall there be a charge for the use of any campsite and adjacent related facilities unless the campground in which the site is located has all of the following: Tent or trailer spaces, drinking water, access road, refuse containers, toilet facilities, personal collection of the fee by an employee or agent of the bureau operating the facility, reasonable visitor protection, and simple devices for containing a campfire (where campfires are permitted).

²The administering bureau may establish a group use rate in lieu of the above "Group Camping Sites" recreation use fee in accordance with the criteria set out in this section, provided such rate is not less than \$3.00 per day per group. Such a group use rate may constitute either a special recreation permit fee or a recreation use fee as determined by the administering bureau.

³Use fees for boat ramps are prohibited. However, in the case of boat launching facilities with specialized facilities or services, such as mechanical or hydraulic lifts, reasonable fees may be assessed in accordance with the criteria set out in paragraph (a) of this section.

SECTION 1227.9 ESTABLISHMENT OF RECREATION USE FEES.

(a) Recreation use fees shall be established by all outdoor recreation administering bureau of the Department of the Interior in accordance with the following criteria:

1. The direct and indirect cost to the government
2. The benefit to the recipient.
3. The public policy or interest served.
4. The comparable recreation fees charged by other Federal and non-Federal public agencies within the service area of the management unit at which the fee is charged.
5. The economic and administrative feasibility of fee collection.
6. Other pertinent factors

(b) With the approval of the Secretary of the Interior recreation use fees may be established for other types of facilities in addition to those which are listed below.

(c) Types of recreation facilities for which use fees may be charged:

Camp and trailer sites¹

¹ Provided that in no event shall there be a charge for the use of any campsite and adjacent related facilities unless the campground in which the site is located has all of the following: Tent or trailer spaces, drinking water, access road, refuse containers, toilet facilities, personal collection of the fee by an employee or agent of the bureau operating the facility, reasonable visitor protection, and simple devices for containing a campfire (where campfires are permitted).

SECTION 111. ESTABLISHMENT OF RECREATION FEE

(a) Recreation fees shall be established by all outdoor recreation administering bureaus of the Department of the Interior in accordance with the following criteria:

1. The direct and indirect cost to the Government.
2. The benefits to the recipient.
3. The public policy or interest involved.
4. The comparable recreation fees charged by other Federal and non-Federal public agencies within the service area of the management unit in which the fee is charged.
5. The economic and administrative feasibility of fee collection.
6. Other pertinent factors.

(b) With the approval of the Secretary or the Interior Recreation Fee Council, fees may be established for other types of facilities in addition to those which are listed below.

(c) Types of recreation facilities for which fees may be charged:

Camp and trailer sites

Provided that in no event shall there be a charge for the use of any equipment and adjacent related facilities unless the campground in which the site is located has all of the following: Tent or trailer space, drinking water, electric hook, refuse containers, toilet facilities, personnel collection of the fee by an employee or agent of the bureau operating the facility, reasonable visitor protection, and signage devices for containing a complete (where complete are permitted).

Group camping sites¹⁺²

Specialized boat launching facilities and services

Lockers³

Boat storage and handling

Elevators

Ferries and other means of transportation

Bathhouses

Swimming pools

Overnight shelters

Guided tours

Electrical hook-ups

Vehicle and trailer storage

Rental of nonmotorized boats

Rental of motorized boats

Rental of hunting blinds

Reservation services

Specialized sited (highly developed)

²The administering bureau may establish a group use rate in lieu of the above "Group Camping Sites" recreation use fee in accordance with the criteria set out in this section provided such rate is not less than \$3.00 per day per group. Such a group use rate may constitute either a special recreation permit fee or a recreation use fee as determined by the administering bureau.

³Use fees for boat ramps are prohibited. However, in the case of boat launching facilities with specialized facilities or services, such as mechanical or hydraulic lifts, reasonable fees may be assessed in accordance with the criteria set out in a paragraph (a) of this section.

Specialized boat launching facilities and services

Launches

Boat storage and handling

The administering bureau may establish a group fee rate in lieu of the above "Group Camping Sites" reservation use fee in accordance with the criteria set out in this section provided such rate is not less than \$3.00 per day per group. Such a group use rate may constitute either a special reservation benefit fee or a reservation use fee as determined by the administering bureau.

Use fees for boat ramps are prohibited. However, in the case of boat launching facilities with specialized facilities or services, such as mechanical or hydraulic lifts, reasonable fees may be assessed in accordance with the criteria set out in a paragraph (a) of this section.

SECTION II

STATE RECREATION AND VISITATION DATA

Annual Information Exchange

by

National Association of State Park Directors

SECTION II
STATE REGISTRATION AND VISITATION DATA
Annual Information Report

National Association of State Park Directors

SECTION II

INTRODUCTION

The data for this report were obtained through a questionnaire by the National Association of State Park Directors. The questionnaire was completed by forty-nine State Park agencies that administer parks, recreation areas, historic sites, and related facilities. With few exceptions, the reporting period covered by the questionnaire is July 1, 1978 to June 30, 1979. The Division of State Parks, Indiana Department of Natural Resources, was responsible for the preparation of this document.

This report is not an attempt to identify cause and effect relationships, nor does it provide a detailed analysis of the data. While some simple statistics are presented and certain findings discussed, the intent is to report the information in as straight-forward a manner as possible.

Please notice that when comparing 1978 figures to 1979 figures, we have a total of forty-nine states responding, compared to forty states in 1978. Therefore, the mean is more accurate than the aggregate when comparing the statistics from year to year.

The data for this report were obtained through a questionnaire by the National Association of State Park Directors. The questionnaire was completed by forty-nine State Park agencies that administer parks, recreation areas, historic sites, and related facilities. With few exceptions, the reporting period covered by the questionnaire is July 1, 1978 to June 30, 1979. The Division of State Parks, Indiana Department of Natural Resources, was responsible for the preparation of this document.

This report is not an attempt to identify cause and effect relationships, nor does it provide a detailed analysis of the data. While some simple statistics are presented and certain findings discussed, the intent is to report the information in as straight-forward a manner as possible.

Please notice that when comparing 1978 figures to 1979 figures, we have a total of forty-nine states responding, compared to forty states in 1978. Therefore, the mean is more accurate than the aggregate when comparing the statistics from year to year.

SUMMARY

The means which are presented on the following pages are averages for only those states reporting a figure (including zero; an "N/A" or "?" was not considered in the calculations.

Inventory

State Parks accounted for 72% of the total acreage of land within the average State Park system. Next in line were State Recreation Areas with 11%, followed by State Forests with 9%. State Natural Areas contributed 8% to the total land acreage, Environmental Education Areas contributed 2.4%, Miscellaneous Areas .75%, and Water Use Areas .73%. State Trails' acreage was not measurable.

Facilities

The total number of facilities available in forty-nine states are as follows:

campsites, improved -	113,692
campsites, primitive -	42,948
lodge rooms -	4,595
cabins, cottages -	3,630

Visitation and Use

The total number of non-fee versus fee visitors was 335,698,231 and 620,863,452 respectively. The total number of day visitors, 502,226,133, was much greater than the number of overnight visitors, 45,609,159. Campers accounted for 66% of the total number of overnight visitors.

Please Note:

7 - denotes answer not available or not given

N/A - not applicable

The means which are presented on the following pages are
averages for only those states reporting a figure (including
states as "WYA" or "N") was not considered in the calculations.

State Parks accounted for 71% of the total acreage of land
within the average State Park system. Next in line were
State Recreation Areas with 11%, followed by State Forests
with 9%. State Natural Areas contributed 1% to the total
land acreage. Environmental Education Areas contributed
1.4%, Miscellaneous Areas .75%, and Water Use Areas .75%.
State Trails' acreage was not measurable.

Facilities

The total number of facilities available in forty-nine
states are as follows:

campsites, improved -	113,682
campsites, primitive -	42,944
lodge rooms -	1,292
cabins, cottages -	2,620

Visitation and Use

The total number of non-fee visitors was 55,000,000
and 620,665,482 respectively. The total number of day visitors,
502,315,115, was much greater than the number of overnight
visitors, 45,600,159. Campers accounted for 66% of the total
number of overnight visitors.

Capital Outlay

A greater number of acres were purchased directly by the park systems instead of "acquired by other means". The average cost per acre of land purchased was \$287.50. The total cost of new construction increased 30% from the 1978 figures.

Financing

The average operating budget increased 44% from the 1978 figures, whereas the fixed capital outlay budget increased by 85%. The average total revenue from all sources decreased 1.4% from 1978.

Please Note:

? - denotes answer not available or not given

N/A - not applicable

Capital Outlay

A greater number of acres were purchased directly by the
park systems instead of "acquired by other means". The
average cost per acre of land purchased was \$297.50. The
total cost of new construction increased 30% from the 1978
figures.

Financing

The average operating budget increased 44% from the 1978
figures, whereas the fixed capital outlay budget increased
by 22%. The average total revenue from all sources decreased
1.4% from 1978.

¹Field Unit Employee (Park Ranger) - the entry-level park employee, with broad contact, interpretive, and facility maintenance duties.

²Field Unit Manager (Park Superintendent/Manager) - the senior on-site employee who manages the park and supervises subordinate park ranger or other classes.

³Field Supervisor (District Manager/Supervisor) - the employee with responsibility for overseeing the operation of a number of parks in a given region or part of the state.

⁴Operations Chief (Central Office Line Supervisor) - the one employee in the central office whose principal task is the day-to-day direction of park system operations; normally the position to which field units report and which in turn reports to the director of the parks agency.

**VI. PERSONNEL
